Introduction to Lebanon Valley College

Lebanon Valley College, a church-related college of Liberal Arts and Sciences, enjoys the distinction and prestige resulting from ninety-two years of service to American youth and to Christian higher education. Classified as a small college, it enjoys a reputation for friendliness and courtesy. Placing strong emphasis on student-faculty contact, Lebanon Valley College is proud of the amount of individual attention devoted to each student. It strives to provide an opportunity for each student to develop his intellectual capacities and his whole personality. Its curriculum, designed to provide a basic foundation of liberal education, also offers professional specialization in areas in which staff and facilities are available.

The college motto, taken from John 8:32, "And Ye shall know the truth, and the truth shall make you free" has provided a continuous chal-

lenge to each succeeding generation of students.

History and General Information

History

Lebanon Valley College was founded in Annville, Pennsylvania, in 1866 by members of the East Pennsylvania Conference of the Church of the United Brethren in Christ. From the beginning it has been a coeducational institution fostering high standards of scholarship in a Christian

atmosphere.

With a student body of forty-nine, the college opened on May 7, 1866, in a building purchased from the Annville Academy by business men of Annville and presented to the East Pennsylvania Conference of the United Brethren Church. Dr. Thomas Rees Vickroy served as its president during the first five years of its existence. During succeeding years the institution grew in numbers and facilities. In 1890, the college received the Mary A. Dodge Scholarship of \$10,000, which enabled it to close its first quarter century with increased confidence for the future.

In 1897, under the presidency of Dr. Hervin U. Roop, the college entered a period of expansion during which Engle Hall, the Carnegie Library, and North Hall, now Keister Hall, were built. During this period the destruction by fire of the old Administration Building tested the loyalty of college supporters but did not interfere with the program of expansion. The friends of the college rallied to build a new and larger Administration Building, a men's residence hall, and a heating plant. Under Dr. Roop's presidency improved quarters and modern equipment were provided for the science departments. His vision and initiative laid the foundation for the continuing success of Lebanon Valley College.

The inauguration of George Daniel Gossard as President in 1912, was the beginning of an era of prosperity for Lebanon Valley College. During his term of office the student body tripled in numbers, the faculty increased in numbers and attainments, and the elimination of all phases of secondary education raised the institution to true college status. During this period two successful endowment campaigns were completed.

Dr. Gossard was succeeded by Dr. Clyde A. Lynch, who built soundly upon the foundations previously laid. Under his administration the bonds of affection between the college and the church were strengthened, the active support of the alumni was vastly stimulated, academic standards were raised, the services of the college were extended over a wider area, and as a visible symbol of his energetic administration, a physical education building was erected.

Following Dr. Lynch's administration, the Trustees elected to the presidency Dr. Frederic K. Miller, one of the members of the faculty. His election was greeted with warmest enthusiasm by both faculty and constituents. Under his leadership the curriculum has been expanded, the administrative staff reorganized, and relationships with the local com-

munity and alumni strengthened.

The present progressive and efficient administration is assured of increasing institutional support through the merger, in 1946, of the Church of the United Brethren in Christ and the Evangelical Church. The recent three-million dollar Development Program is providing for additional expansion of the college's physical plant and instructional facilities, and will better enable Lebanon Valley College to continue its proud task of educating American youth in the Christian liberal tradition for which it was founded.

Presidents

Rev. Thomas Rees Vickroy, Ph.D.	1866–1871
Lucian H. Hammond, A.M	1871–1876
Rev. D. D. DeLong, A.M	1876–1887

Frederic K. Miller, A.M., Ph.D., Litt.D Acting President	1950–1951
President	1951–

Location and Environment

Lebanon Valley College is located in Annville, Lebanon County, Pennsylvania, twenty miles east of Harrisburg, and five miles west of Lebanon. The campus faces on U.S. Highway 422 and State Highway 934. It can be reached by the Reading Railroad and by bus from Harrisburg, Philadelphia, Baltimore, Washington, D. C., and New York. It can also be reached by the Pennsylvania Turnpike, using the Lancaster-Lebanon Interchange.

Annville is a residential community of about 3,500 people, situated in the agricultural country of the Pennsylvania Germans. In addition to the cultural facilities available at the college, the neighboring communities of Harrisburg, Hershey, and Lebanon offer concerts, lectures, plays, and other cultural activities throughout the year. There are nine churches of different denominations in the community; and churches of every denomination are available within a five mile radius of the college.

Objectives

The educational objectives of Lebanon Valley College are as follows:

- 1. To provide an opportunity for qualified young people to procure a liberal education and to develop their total personalities under Christian influences.
- 2. To help provide the Church with capable and enlightened leaders, both clerical and lay.
- 3. To foster Christian ideals and to encourage faithfulness to the Church of the student's choice.
- 4. To help train well-informed, intelligent, and responsible citizens, qualified for leadership in community, state, and nation.
- 5. To provide pre-professional students with the broad preliminary training recommended by professional schools and professional associations.
- 6. To provide, in an atmosphere of liberal culture, partial or complete training for certain professions and vocations.
- 7. To provide opportunity for gifted students to pursue independent study for the purpose of developing their intellectual powers to the maximum.

Accreditation

Lebanon Valley College is accredited by the Middle States Association of Colleges and Secondary Schools, by the American Chemical Society, and by the Department of Public Instruction of Pennsylvania. It is a member of the Association of American Colleges and of the American Council on Education, and is on the approved list of the Regents of the University of the State of New York and the American Association of University Women.

Lebanon Valley College, is a member of, and accredited by, the National Association of Schools of Music.

Support and Control

Lebanon Valley College receives support from the Missions and Benevolence Budget of the Evangelical United Brethren Church; also from industry, alumni, friends, and parents of students. The institution receives no financial support from taxation.

Total assets of Lebanon Valley College exceed \$4,000,000 including endowment funds in excess of \$1,250,000. Aside from general endowment income available for unrestricted purposes, there are a number of special funds designated for specific uses such as professorships, scholarships, and the library.

At Lebanon Valley College, as at most institutions of higher learning, the tuition and other annual charges paid by the student do not cover the total cost of his education. The college uses income received from the General Church, the supporting Conferences, the Alumni Association, and endowment to supplement the student fees and charges.

Control is vested in a Board of Trustees composed of forty-six members, thirty-two of whom represent the three supporting conferences; three trustees represent the alumni of the institution and eleven are elected at large. Members of the college faculty who are department chairmen are *ex-officio* members of the Board of Trustees.

Campus, Buildings, and Equipment

The campus of thirty-five acres is situated in the center of Annville. The college plant consists of seventeen buildings including:

The Administration Building—Administrative Offices (President, Dean, Administrative Assistant, Registrar, Director of Admissions, Dean of Men, Dean of Women, Business Manager) are located on the main floor. The remainder of the building is devoted to classrooms, laboratories, faculty offices, and book store.

Gossard Memorial Library—Containing the most modern and approved library facilities, The Gossard Memorial Library was opened in June of 1957. This library of more than 60,000 volumes contains an excellent collection of standard reference works. In addition to the books used by the various departments of the college, a diversified collection of periodicals is available.

The Hiram Herr Shenk Collection (which includes the Heilman Library) and the C. B. Montgomery Memorial contain many valuable works dealing with the history and customs of the Pennsylvania Germans. These collections are housed in the Historical Collection Room and are open for reference use under staff supervision.

Special equipment of the library includes a music and listening room equipped with turntables and earphones, and typing booths for students. In addition to the library proper, the building contains an audio visual room equipped with a loud speaker system.

Carnegie Lounge—The former Carnegie Library building has been converted into attractive lounges and snack bar for students and faculty.

Residence Halls—There are six residence halls for women (Green, Vickroy, South, West, Sheridan, and Sheridan-West) and two for men (Kreider and Keister).

Lynch Memorial Physical Education Building—This modern physical education plant is well equipped for physical education, recreation and campus meetings.

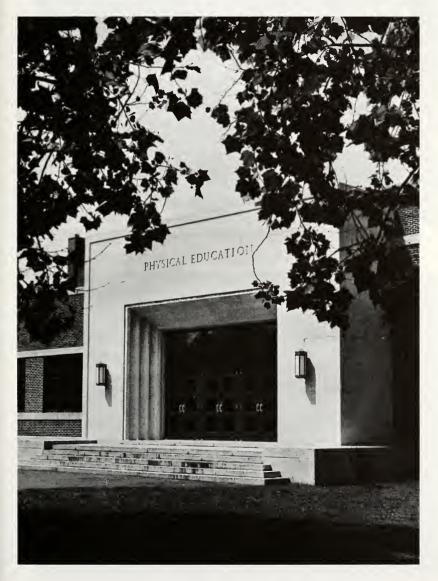

Infirmary—Staffed by resident nurses under the supervision of the college physician, the infirmary is available to all students.

Engle Hall—This building houses the Music Department and includes an auditorium, classrooms, studios, offices, and private practice rooms.

Science Hall—The first floor contains the laboratories, library, class and conference rooms, and offices of the Chemistry Department. Similar facilities for the Biology Department occupy the second and third floors.

The College Dining Hall—With facilities for serving approximately six hundred students, the College Dining Hall was opened in September, 1958.

Athletic Fields—The athletic fields provide space for football, basketball, hockey, track, baseball, tennis, volleyball, and other sports.

Student Activities

Extra-curricular activities constitute a vital part of college life at Lebanon Valley College. Activities outside the classroom range from various clubs and musical organizations to student government groups and numerous religious activities. The student has a wide variety from which to choose.

THE RELIGIOUS LIFE

Lebanon Valley College was founded as a Christian college and continues to be dedicated to this objective. All students are invited and urged to participate in some phase of religious activity.

Chapel

A college chapel service is held weekly in the College Church. Students are required to attend. Faculty, students, local clergymen from the various denominations, and nationally and internationally known speakers participate in these services, which constitute an integral part of a liberal education for every college student.

Sunday Services

The College Church and the other churches of the community extend a warm welcome to all college students who wish to attend Sunday worship. A Sunday School class especially for college students is conducted in the College Church each Sunday during the academic year.

The Student Christian Association

The Student Christian Association conducts daily morning prayers, weekly devotional services, campus-wide Bible studies, special seasonal services, and intercollegiate exchange religious programs. In addition, the Student Christian Association sponsors social events throughout the year and arranges for the Big Sister-Little Sister and the Big Brother-Little Brother program for incoming freshmen.

All students are urged to participate actively in the student-centered religious programs.

Religious Emphasis Week

This is one of the outstanding religious events of the school year. Notable speakers are invited to share their experiences with the student body through classroom lectures, seminars, convocations, and personal interviews.

Religion and Life Lectureships

The purpose of the Religion and Life Lectureship is to deepen the student's understanding of some of the problems of life and the religious resources that are available to meet such problems. Each semester a Christian leader of national or international reputation is invited to spend a day on campus in order to confer with students and faculty, to conduct seminars, and to address the entire college community.

Christian Vocation Week

During this period special emphasis is given to the Christian way of life as the basis for all vocations and professions. Opportunity is provided for students interested in full-time church vocations to confer with visiting teams of advisors and counselors.

Delta Tau Chi

Delta Tau Chi is an organization composed of students who have decided to devote full-time service to church vocations. Membership is open to all students who wish to participate in the activities of the organization. The group holds regularly scheduled meetings, conducts programs at various hospitals and county homes, and enters into other community projects.

FACULTY-STUDENT GOVERNMENT

Ultimate responsibility for activities on the college campus rests with the faculty and the administration. However, the faculty and the administration have delegated powers and responsibilities to the student governing bodies so that, to a large extent, students govern themselves. The college encourages initiative and self-government as a part of the democratic training offered.

Student-Faculty Council

The coordination of student affairs is the responsibility of the Student-Faculty Council. The Council is composed of three faculty members and a representative from each of the organizations on the campus. The purpose of this organization, in addition to coordinating student activities, is to consider matters pertaining to student welfare, to seek improvement of the social life of the campus, to serve as liaison between students and faculty, and to suggest and initiate programs for the over-all improvement of the college.

Governing Bodies

Four student governing bodies function on the campus. The Senate is the governing body for students living in the men's residence halls and for men students residing in the community with other than their immediate families; the Men's Day Student Congress is the governing body for commuting men students; the Women's Student Government Association is the governing body for women living in the residence halls; and the Women's Commuter Council is the governing body for commuting women students. These four organizations, with the approval of the faculty, make and administer the rules which govern certain aspects of student life.

CAMPUS ORGANIZATIONS

Social Organizations

Six organizations endeavor to enrich the social program of the college by sponsoring social activities on the campus and in the community, and by broadening the experience of its members through group action.

> Phi Lambda Sigma Kappa Lambda Sigma
>
> Knights of the Valley
>
> The Lagionneiros Knights of the Valley

Kappa Lambda Nu The Legionnaires

Recognition Groups

Students who have achieved scholastic distinction in their academic work, or in certain areas, are eligible for membership in honorary scholastic societies.

Phi Alpha Epsilon

Pi Gamma Mu

Beta Beta Beta

Forensic and Dramatics

An opportunity to develop dramatic and musical talents under qualified leadership is offered to the students of Lebanon Valley College by the following organizations:

> Wig and Buckle Club Symphony Orchestra

College Band Concert Choir

College Chorus

Publications

Practical experience in management, writing, and editorial work is available to students through membership on the staff of the college yearbook and the campus newspaper.

The Ouittavahilla

La Vie Collegienne

Departmental Clubs

Many departmental clubs provide opportunities for students to participate in supplemental department activities. At regular meetings reports on appropriate topics are presented and discussed. Other activities sponsored by the departmental clubs include lectures by specialists in the club's particular field of interest, educational films, and field trips.

Mathematics: Industrial Mathematics Society Affiliate

ATHLETICS AND RECREATION

Lebanon Valley College maintains a full program of intramural and intercollegiate athletic activities. Intramural leagues and tournaments are conducted in the various sports for men, while the women acquire points toward individual awards by participation in the women's intramural program.

The college participates in six intercollegiate sports for men (base-ball, basketball, football, tennis, track, wrestling) and two for women (basketball and hockey). There are two athletic organizations on the campus, the "LV" Club for men and the Women's Athletic Association.

Lebanon Valley College is a member of the following national and regional athletic associations: National Collegiate Athletic Association, Middle Atlantic States Collegiate Athletic Conference, and Eastern College Athletic Conference.

Aims and Objectives of Intercollegiate Athletics

Lebanon Valley College endeavors to maintain inter-collegiate athletic programs for the students rather than for spectators. The overall programs are not regarded as money-making ventures. On the contrary, intercollegiate athletics has consistently been a financial burden. However, the college continues to support and encourage intercollegiate athletics because we are convinced that it is an important factor in the intangible known as "morale." Intercollegiate athletics is an integral part of the educational pattern of our young people—no more and no less.

Admission

Students are admitted to Lebanon Valley College on the basis of scholarly achievement, intellectual capacity, character, personality, and ability to profit by college experience.

GENERAL INFORMATION

- 1. All communications concerning admission should be addressed to the Director of Admissions, Lebanon Valley College, Annville, Pennsylvania.
- 2. Applications should be submitted as early as possible in the latter part of the junior or the beginning of the senior year of high school or preparatory school.
- 3. Applications must be filed on forms provided by the Office of Admissions.
- 4. Each application must be accompanied by an application fee of \$10.00. This fee is not refundable.
- 5. A transcript of the secondary school record, on a form provided by the college for that purpose, must be sent by the principal to the Director of Admissions.
- 6. A student transferring from another collegiate institution must present an official transcript of his scholastic record and evidence of honorable dismissal.
- 7. All new students are required to present at the time of registration a physician's report of medical examination and a vaccination certificate showing successful vaccination within a period of seven years before entrance to college.

Admission is based on *total* information submitted by the applicant or in his behalf. Final decision, therefore, cannot be reached until all information has been supplied by the applicant.

FACTORS DETERMINING ADMISSION

Each candidate for admission will be considered individually and the decision of the Admissions Committee with respect to admission will be based on the following factors:

- 1. The transcript of the applicant's secondary school record.
- 2. Recommendation by the principal, teachers, and other responsible persons as to the applicant's special abilities, integrity, sense of responsibility, seriousness of purpose, initiative, self-reliance, and concern for others.
- 3. A personal interview, whenever possible, with the Director of Admissions or his designate.
 - 4. College Entrance Examination Board aptitude test results.

All candidates for admission are required to take the aptitude tests administered by the College Entrance Examination Board. Those seeking

entrance in September are advised to take these tests in the preceding December or January. Full information concerning dates of administration may be obtained by writing directly to: College Entrance Examination Board, P. O. Box 592, Princeton, New Jersey.

5. Additional test results which may be required in special cases by

the Committee on Admissions.

Department of Music

An applicant to the Music Education curriculum is expected to satisfy the general requirements for admission. In addition, the candidate must appear for an audition before members of the music faculty and show evidence of:

- a. An acceptable singing voice and a fairly quick sense of tone and rhythm;
- b. Ability to sing at sight hymn and folk tunes with a fair degree of accuracy and facility;
- Ability to play the piano or some orchestral instrument at a level representing two years of study.

RECOMMENDED UNITS FOR ADMISSION

It is recommended that all candidates offer sixteen units of entrance credit and graduation from an accredited secondary school or submit an equivalency certificate acquired through examination.

Ten of the sixteen units offered for admission must be from the following subjects: English, foreign language, mathematics, science, and

social studies.

An applicant for admission whose preparatory courses do not coincide with the distribution of subject units (see below) may be considered by the Committee on Admissions if his academic record is of high quality and if, in the opinion of the Committee, he appears to be qualified to do college work satisfactorily. All entrance deficiencies must be removed before sophomore academic status will be granted.

DISTRIBUTION OF SUBJECT UNITS

English	4 u	nits
*Foreign Language (in one language)	2	"
Mathematics		**
Science (laboratory)	1	**
Social Studies		"
Electives	6	"
Total required	16	**

^{*} If an applicant cannot present the two units of foreign language, he will be required to take a minimum of two years of some one language in college. His credits for this work will be counted toward graduation requirements.

ADMISSION

A candidate who applies for advanced standing through credits earned at another institution must submit an official transcript of his record for evaluation. This transcript must be sent directly to the Director of Admissions, Lebanon Valley College, by the Registrar of the previous institution, upon the request of the candidate.

Credits earned at an approved institution will be honored, provided they carry a grade of "C" or better and that the work parallels courses listed in this catalogue or can be substituted for courses or electives.

Advanced placement and credit will be granted to high school graduates who pass with honors the College Board Examination Advanced Placement Tests and who have the approval of the Dean of the College.

Subject to the conditions listed in the second paragraph, Lebanon Valley College will recognize for transfer credit a total of seventeen hours of USAFI course work, provided such credit is recommended by the American Council of Education's "A Guide to the Evaluation of Educational Experiences in the Armed Services."

Credit will not be granted for correspondence courses.

Gossard Memorial Library

Expenses

Lebanon Valley College is a non-profit institution. The tuition, fees, and other expenses paid by the students cover less than seventy-five percent of the college's instructional and operational costs. The remaining twenty-five percent is provided by income from the college's endowment and by gifts from the Evangelical United Brethren Church, alumni, industry, and friends. The cost to the student is maintained at a level consistent with high quality instruction and adequate facilities.

Tuition, fees, and other charges for the college year 1960-61 are listed below (For a description of fees, see page 28).

All Students

Application fee	\$ 10.00			
Tuition	450.00	per	semester	
Student Activities fee:				
Full-time students				
Part-time students	2.50	per	semester	hour
Insurance (see Description of Fees)	15.00	per	year	

Resident Students Only

Board \$212.5	0 per semester
Room	
Cleaning service charge, men only 5.0	0 per semester
Residence Hall key fee 1.0	0 per year

Special Fees

Graduation fee	\$ 20.00		
Registration fee for special students	1.00	per	semester
Fee for part-time students (less than			
12 hours per semester)	30.00	per	hour
*Fee for credit hours in excess of			
17 hours per semester	30.00	per	hour
For students entering September 1960			
under new general requirements, fee for			
credit hours in excess of 16 hours per			
semester	30.00	per	hour
Transcript fee	1.00		

The college reserves the right to revise its fees and other charges as it may deem necessary.

Auxiliary School Fees

Registration fee (summer and evening) \$	1.00
Tuition	30.00 per hour

^{*} Fractional hours of credit are charged proportionately.

Music Fees

Private music instruction (one-half hour per			
week)	\$ 40.00	per	semester
Class music instruction (one hour per week)	30.00	per	semester
Music instruction, preparatory department			
(one class lesson per week)	20.00	per	semester
Practice rooms, one hour daily	5.00	per	semester
Practice rooms, each additional hour daily	5.00	per	semester
Organ (practice rental) one hour daily	35.00	per	semester
Organ (practice rental) two hours weekly	15.00	per	semester
Band and orchestra instrument rental	7.50	per	semester

Penalty Fees

A fee of \$10.00 is charged each student who does not register for classes during the prescribed registration period. A late pre-registration fee in the amount of \$10.00 is charged each student who does not pre-register during the established time.

A fee of \$2.00 is charged for every change of course made at the student's request after registration day.

Description of Fees

An application fee of \$10.00 must be paid by all students applying for admission to the college. This fee covers the administrative expenses of processing the application. It must accompany the application for admission and is not refundable.

Tuition, charged at the rate of \$450.00 per semester, entitles the student to seventeen semester hours of instruction per semester. Beginning with the freshman class entering September, 1960, the tuition charge per semester entitles the student to sixteen credit hours of instruction per semester.

Payment of the student activities fee of \$37.50 per semester entitles a student to the following privileges: use of physical education facilities and intramural athletic equipment; subscription to the college newspaper and yearbook; membership in the Student Christian Association and student government associations; admission to home intercollegiate athletic contests; and use of the college health facilities.

All students attending the college on a full-time basis are required to participate in the Student Sickness and Accident Insurance Plan, or to sign a waiver releasing the college from any liability arising from accidental injuries sustained by the student on the college premises or in any college activity in which the student is involved. The Insurance Plan costs \$15.00 per year.

The key fee is used to defray the annual expense of changing locks on the doors of all rooms in the residence halls.

A graduation fee of \$20.00 is charged all seniors to cover the cost of the diplomas and the expenses involved in the commencement activities. This fee does not cover the rental of cap and gown.

Laboratory Fees

Biology 18, 21, 22, 28, 29, 30, 31, 32, 34, 41	3 10.00 per semester
Biology 44	2.50 per credit hour
Chemistry 12, 20, 21, 22, 30, 31, 40	12.00 per semester
Chemistry 35, 44	16.00 per semester
Geology 20	5.00 per semester
Integrated Science 10	10.00 per semester
Physics 10, 22, 25, 26, 32, 36, 43, 48	10.00 per semester
Education 30, Sec. Ed. 41	1.00 per course
Education 40, Elementary Education 40	
(Student Teaching)	40.00 per course
Education 45	4.00 per course
Elementary Education 24, 32	1.50 per course
Mathematics 12	10.00 per course
Mathematics 37	10.00 per semester
Music Ed. 40a, 40b (Student Teaching)	20.00 per semester
Psychology 35a, 35b, 42	5.00 per course
Psychology 44	1.00 per course
Sociology 31	1.00 per semester

Laboratory fees are charged to cover the cost of materials used in the laboratories and are not refundable.

Deposits

Admission deposit (required of all new			
students-Not refundable) \$	50.00		
Residence hall room reservation	20.00		
(not required of new students)	50.00	per	year
Room damage deposit (required of all	10.00		
residence hall students)	10.00	per	year
Laboratory breakage deposits:	10.00		
Chemistry, all courses	10.00	per	year

The admission deposit of \$50.00 is required of all new students, including transfers, accepted for admission to the college. It is payable within ten days after the student has been notified of his acceptance. Until this deposit is paid the student is not guaranteed a place in the entering class. The admission deposit is not refundable, but will be applied to the student's account upon registration.

Residence hall rooms are reserved only for those students who make an advance room reservation deposit of \$50.00. This deposit must be made by June 1 and is credited to the student's first semester account. IT IS NOT REFUNDABLE UNDER ANY CIRCUMSTANCES.

A room damage deposit in the amount of \$10.00 per year is required of all students residing in a residence hall. This deposit is refunded at the end of the year, provided the occupant of the room has not damaged it in any way. If it is determined that a student has damaged a room or the furniture in it, only that portion of his deposit not used to restore the loss will be returned.

All breakage in the chemistry, biology, and physics laboratories will be charged to the student responsible for the breakage. Any balance of a laboratory breakage deposit due the student at the completion of a particular course will be returned to him or credited to his account; any deficit beyond the deposit will be charged to his regular college account.

Payment of Fees

Charges for tuition, board, room, other regular fees, and insurance will be issued at the beginning of each semester for the full semester. Charges are due and payable on or before the day of registration.

Satisfactory settlement of all bills and fees is required before an honorable dismissal will be granted or grades released.

Candidates for degrees must make settlement of all accounts before diplomas are awarded.

Deferred Payments

Parents who prefer to pay tuition and other fees in equal monthly installments during the academic year may make such arrangements through the Business Office. The cost is slightly higher than when payment is made in full at the beginning of each semester.

Refund Policy

No refund will be allowed on residence hall room rent.

The unused portion of the cost for board will be refunded beginning seven days after honorable withdrawal from the college. A student who withdraws without officially notifying the Registrar forfeits all right to a refund.

When a student retains his class standing during absence from college because of illness or for any other reason, no refund will be allowed on tuition or board. In a case of suspension or expulsion there will be no refund.

A reasonable refund will be allowed on tuition and board to a student who officially withdraws from the college. The college refund policy is listed below:

Period of student's attendance in college dated from beginning of semester	% of tuition refunded
One week or less	. 80%
Between one and two weeks	. 80%
Between two and three weeks	. 60%
Between three and four weeks	. 40%
Between four and five weeks	. 20%
Over five weeks	. 0%

Residence Halls

The rent for rooms in residence halls ranges from \$112.50 to \$137.50 per semester, depending on the type of room.

Occupants are held responsible for all breakage and loss of furniture, or any damage for which they are responsible.

Each room in the men's residence halls is furnished with chests of drawers, book case, beds, mattresses, chairs, and study tables. Students must provide bedding, rugs, lamps, and all other furnishings.

Each room in the women's residence halls is furnished with beds, mattresses, chairs, dressers, book case, and study tables. Other desired furnishings must be supplied by the student.

Students rooming in residence halls may not sublet their rooms to commuting students or to others.

Since Lebanon Valley College is primarily a boarding institution all students are required to live in college owned or controlled residence halls. Exceptions to the above are: married students, students living with immediate relatives or those living in their own homes who commute daily to the campus.

Should vacancies occur in any of the residence halls, the college reserves the right to require students rooming in the community to move

into a residence hall.

The college reserves the right to close all residence halls during vacations and between semesters.

Lounges are provided by the college for resident and commuting students.

Meals

All resident students are required to take their meals in the College Dining Hall. Commuting students may arrange for meals Monday through Friday, if space is available.

Lunch in the College Dining Hall

Financial Aid

Lebanon Valley College gives financial assistance to deserving students in so far as its scholarship and aid funds permit. In the assignment of scholarships and grants-in-aid, and in the granting of loans and other forms of assistance the scholarship record, personal character, general cooperation, and need of the individual are considered.

Scholarships do not apply to accounts for tuition for extra semester hours taken. In general, scholarships are not applicable to summer school tuition. No scholarship or rebate is granted for less than a semester.

Students in need of financial assistance may apply for such aid after they have been notified of their admission to the college. Application for aid should be made in writing to the Chairman of the Scholarship Committee. This is to be supplemented by information submitted through the College Scholarship Service, Box 176, Princeton, New Jersey, on forms available at the office of the high school principal.

Scholarships may be granted for periods of from one to four academic years. Grants-in-aid and loans are made for a maximum period of one academic year, but students may reapply. Financial aid for returning students is dependent upon satisfactory scholarship for the preceding semester.

All scholarships and grants-in-aid awarded for a specific school year are payable in two equal installments, one in each semester. Work aids are paid upon certification that the work is completed.

Competitive Scholarships

Competitive scholarship examinations are conducted at the college each year. Any high school senior, in the upper-third of his class, who meets the admission requirements of the college, is eligible to participate. Information and applications may be procured by writing to the Director of Admissions.

Recipients of competitive scholarships are required to complete their undergraduate work at Lebanon Valley College or refund the used portion of the grant to the college.

Scholarships won in the Competitive Examinations, or granted for high scholastic standing, can be retained only if the student maintains a grade point average of 2.5 or better.

The Kift-Mullen Memorial Foundation Scholarships

The Kift-Mullen Memorial Foundation Scholarships are available to college students and seniors who are graduates of Allentown High School preparing to become teachers in the public or parochial schools. Awards in the amount of \$200.00 are made by July 1 of each school year.

Tuition Rebates

Resident students preparing for the ministry of the Evangelical United Brethren Church are entitled to an annual reduction of \$300.00 in tuition. Commuting students preparing for the ministry of the Evangelical United Brethren Church are entitled to an annual reduction of \$175.00 in tuition.

Children of ministers of the Evangelical United Brethren Church residing in the residence halls are entitled to an annual reduction of \$125.00 on full tuition; commuting students are entitled to a reduction of \$75.00.

Grants-In-Aid

Grants-in-aid are defined as credit on tuition allowed students and come directly from college operating income instead of from special gifts or restricted endowment funds.

Opportunities for Self-Support

Financial assistance is available in the form of waiterships, janitorships, laboratory aids, clerical aids, work in the library, and other forms of work assignments. These are granted to deserving students on the basis of the needs of the college.

Loans

Income from endowment established as loan funds is available for loans to deserving students. A student may borrow a maximum of \$600.00 in any one year and a total of \$2400.00 during his college career. Loans are interest free during the period that the student is in college. Interest at a nominal rate is charged following graduation or withdrawal from college. Student loan funds are listed below:

Mary A. Dodge Fund\$	15,551.09
Daniel Eberly Scholarship Fund	663.73
Evangelical United Brethren Church Loan Fund	5,731.58
Henry B. Stehman Fund	2,356.32
Alumni Giving Fund	5,454.43
Charles E. Merrill Fund	624.53
Paul S. Wagner Fund	251.17

The National Defense Education Loan Program is also available to students at Lebanon Valley College.

Other Endowment Aids

In addition to the student loan funds there are a number of other endowment aids established at the College. They are as follows:

Academic Procedures

Registration

Students are required to register for classes on official registration days of each semester and on designated pre-registration days. Information concerning the dates for official registration is listed in the college calendar, pages 5, 7, and 9.

Late Registration

Students registering later than the days specified will be charged a late registration fee of ten dollars. Students desiring to register later than one week after the opening of the semester will be admitted only by special permission of the Dean of the College. Students who do not preregister during the designated time will be charged a late pre-registration fee of ten dollars.

Change of Registration

Change of registration, when necessary, must be made over the signature of the adviser. Registration for a course will not be permitted after the close of the second week of the semester. A student may withdraw from a course any time within the first six weeks of classes in a semester without prejudice (See Penalty Fees on page 28).

Freshman Orientation

An orientation period, Freshman Week, of several days at the beginning of the college year is provided to help new students, both freshmen and transfers, to become familiar with their academic surroundings. This time is devoted to lectures, placement tests, social activities, and informal meetings with members of the faculty. New students are acquainted with the college traditions and are instructed in the use of the library.

During the first semester all freshmen and transfer students are required to attend a series of lectures and discussions on campus activities and methods of study.

Discontinuance of Course

The college reserves the right to withdraw or discontinue any course for which an insufficient number of students have registered.

Concurrent Courses

A student enrolled for a degree at Lebanon Valley College may not carry courses concurrently at any other institution without the consent of his major adviser. Neither may a regular student carry courses concurrently in the Evening or Extension Division of the College without the permission of the major adviser.

A student registered at Lebanon Valley College may not obtain credit for courses taken in other colleges during the summer unless such courses have prior approval of the major adviser.

Faculty Advisers

Each student is assigned a faculty adviser who serves in the capacity of friendly counselor.

The student, before registering for the second year, or the third year, at the latest, must choose a department or a curriculum in which to pursue work of special concentration. This department or curriculum shall be known as his major. The head of the department or the curriculum in which a student has elected to major becomes the adviser for that student. The adviser's approval is necessary before a student may register for or discontinue any course.

Arrangement of Schedules

Each student arranges his course of study and his class schedule in consultation with, and approval of, his faculty adviser. Students already in attendance do this during pre-registration periods. For information concerning faculty advisers, new students will consult lists posted by the Registrar on registration days at the beginning of each semester.

Limit of Hours

To be classified as full-time, a student must take at least twelve semester hours of work. Seventeen semester hours of work is the maximum permitted without special permission of the Dean of the College; beginning with the freshman class entering September, 1960, the maximum permitted is sixteen semester hours (Physical Education will carry no credit).

The privilege of carrying extra hours will be granted only for compelling reasons and only when a satisfactory grade level has been maintained for the previous semester. An additional charge will be made for all hours above seventeen. For students entering September, 1960, and thereafter under the new general requirements, an additional charge will be made for all hours above sixteen.

Academic Classification

Students are classified academically at the end of each semester. Membership in the sophomore, junior, or senior classes is granted to students who have obtained the normal number of semester hours and quality points of the class to which admission is sought, or who, if lacking in credit, do not fall short of the regular amount by more than six

semester hours and twelve quality points. For enrollment in the sophomore class a student must have earned 30 semester hours credit and 60 quality points; in the junior class, 60 semester hours credit and 120 quality points; in the senior class, 90 semester hours credit and 180 quality points.

Counseling and Placement

Lebanon Valley College recognizes as part of its responsibility to its students the need for providing sound educational, vocational, and personal counseling. Measures of interest, ability, aptitude, and personality, in addition to other counseling techniques, are utilized in an effort to help each student come to a fuller realization of his capabilities and personality. An important part of the counseling program consists of a series of lectures and discussions conducted as a non-credit course for new students.

Placement services are provided by the College for aiding students in procuring part-time employment while in college and in obtaining positions upon graduation. A current file is maintained which contains information about positions in various companies and institutions, Civil Service opportunities and examinations, entrance to professional schools, assistantships, and fellowships. Representatives of business, industry, and educational institutions visit the campus annually to interview seniors for prospective employment. A file of credentials and activities of those students availing themselves of the services is available to prospective employers. Graduates may keep their individual files active by reporting additional information to the Director of Placement Services.

A Teacher Placement Bureau is maintained which assists students in finding positions. Records of students' credentials in all areas of the students' activities are on file.

Auxiliary Schools

Summer, Extension, Evening

Summer sessions, evening classes on campus, and classes in the Harrisburg Area Center for Higher Education have enabled teachers, state employees, and others in active employment to attend college courses and secure academic degrees. By a careful selection of courses, made in consultation with the appropriate adviser, students can meet many of the requirements for a baccalaureate degree. Some courses may be taken for permanent teaching certification; others may be taken with the aim of transferring credit to another institution. Many courses lead to professional advancement or are of direct benefit to persons in business or industry, while others assist in broadening the student's vocational, social, and cultural background.

Summer School

Regularly enrolled students may, by taking summer school courses, meet the requirements for the bachelor's degree in three years.

A course in Student Teaching (Education 40) will be offered in the 1960 summer session at Hershey, Pennsylvania. It is designed to meet the minimum student teaching requirement in the secondary field toward teacher certification in the Commonwealth of Pennsylvania.

Summer School in 1960 will begin on June 13 and in 1961 on June 10.

Campus Classes

Evening classes are offered on the campus, Monday through Thursday, and carry residence credit.

Separate brochures are published for the Summer School and the Evening Classes. For copies or for other information pertaining to Summer School or Evening Classes write to Dr. Carl Y. Ehrhart, Director of Auxiliary Schools, Lebanon Valley College, Annville, Pennsylvania.

Harrisburg Area Center for Higher Education

Extension classes are offered in the John Harris High School, 2541 Market Street, Harrisburg, on Monday through Thursday evenings. Lebanon Valley College's extension program in Harrisburg is carried on in conjunction with Elizabethtown College, Temple University, the Pennsylvania State University, and the University of Pennsylvania.

For details pertaining to the Harrisburg Area Center for Higher Education write or call Dr. John Berrier, Dean, 201 Market Street, Room 204, Harrisburg, Pennsylvania, at Cedar 8-9694 or 8-9695.

Administrative Regulations

The rules of the college are designed to provide for proper regulation of the academic community. The rules and regulations as stated in this bulletin are announcements and in no way serve as a contract between the student and the college. Attendance at the college is a privilege and not a right. The student by his act of registration concedes to the college the right to require his withdrawal any time deemed necessary to safeguard the ideals of scholarship and character, and to secure compliance with regulations. It is expected that the conduct of all campus citizens will conform to accepted standards. All students are required to respond to communications sent by any duly constituted authority of the college.

Class Attendance

Each student is expected to attend every session of the courses for which he is registered.

If the student shall absent himself without cause, he shall be reported to the Registrar's Office. If he continues to absent himself without cause, the instructor shall notify the student's faculty adviser and Dean of the College. The adviser will counsel with the student regarding his work. If the absence is repeated the instructor will discuss the matter with the Dean of the College. The Dean of the College will confer with the student and notify the parents. If the absence is continued, the instructor may drop the student from his roll with the consent of the Dean of the College.

Chapel Attendance

Chapel service is conducted once a week. Attendance is required of all full-time students. Five absences are allowed during a semester. For each additional unexcused absence one hour will be added to the required hours for graduation.

Hazing

Hazing is strictly prohibited. Any infringement by members of other classes upon the personal rights of freshmen as individuals is interpreted as hazing.

Cars and Student Parking

Resident students of the three upper classes may have cars on campus. Resident freshmen students are not permitted to have cars.

All cars owned or operated by Lebanon Valley College students shall be registered with the student Men's Senate Parking Committee. Violations of parking regulations established by the Senate Parking Committee may result in fines.

Transcripts

Each student, former student, or graduate is entitled to one transscript of his college record without charge. For each copy after the first, a fee of one dollar is charged.

Regulations Regarding Students on Academic Probation

1. A student, who does not pass with a 2.0 quality point average at least 60% of his academic load per semester, may be placed on probation.

2. A student may be placed on academic probation whenever the character of his work is such as to indicate that the student is in danger

of failing to complete the work necessary for graduation.

3. A student placed on probation, who fails to pass all of his work and who does not have a 2.0 quality point average for the semester, may be subject to suspension from the college for the semester following, or subject to dismissal. In case of suspension he may be permitted to apply for readmission.

4. A student placed on academic probation will be notified of such status by the Dean of the College and informed of the college regulations governing probationers. Thereafter, infraction of these regulations renders

the student liable to dismissal.

5. When a student is put on probation, faculty and parents will be notified by the Dean of the College. The Dean of the College may terminate the period of probation of any student. Usually this occurs at the end of a final marking period.

6. Students on probation are required to regulate their work and their time so as to make a most determined effort to bring their work

up to the required standard.

7. The conduct of the probationer is governed by the following rules:

a. No unexcused class absences will be permitted.

b. Any office or activity in any college organization that involves such expenditure of time as to jeopardize the successful pursuit of academic work must be relinquished.

Requirements for Degrees

Lebanon Valley College confers five bachelors degrees. They are: Bachelor of Arts, Bachelor of Science, Bachelor of Science in Chemistry, Bachelor of Science in Nursing, and Bachelor of Science in Medical Technology.

The degree of Bachelor of Arts will be conferred upon students who complete the requirements for graduation in the following areas, and who are recommended by the faculty and approved by the Board of Trustees: Biology, English, French, German, Greek, History, Mathematics, Philosophy, Physics, Political Science, Psychology, Religion, Sociology, and Spanish.

The degree of Bachelor of Science will be conferred upon students who complete the requirements in the following areas, and who are recommended by the faculty and approved by the Board of Trustees: Biology, Chemistry, Mathematics, Physics, Economics and Business Administration, Music Education, Arts-Engineering, Arts-Forestry, and Elementary Education.

The professional degrees of Bachelor of Science in Chemistry, Bachelor of Science in Nursing, and Bachelor of Science in Medical Technology will be conferred upon students who complete the requirements in the respective professional areas and who are recommended by the faculty and approved by the Board of Trustees.

For detailed information see pages 44-59.

Semester Hours

The requirements for degrees are stated in "semester hours of credit" which are based upon the satisfactory completion of courses of instruction. Generally, one semester hour credit is given for each class hour a week throughout a semester. In courses requiring laboratory work, not less than two hours of laboratory work a week throughout a semester are required for a semester hour of credit. A semester is a term of approximately seventeen weeks.

Candidates for degrees must obtain a minimum of 126 semester hours of credit in academic work, and four semester hours in physical education, making a total of 130 semester hours. It is understood, however, that a student who has a physical disability may be excused (on recommendation from the college physician) from the requirement in physical education without being obliged to substitute other work in order to bring his total semester hours from 126 to 130.

Beginning with the freshman class entering in September, 1960, and graduating June, 1964, the candidates for degrees must obtain a minimum of 120 semester hours credit in academic work in addition to the required courses in Freshman and Sophomore Physical Education.

Major and Minor

As a part of the total requirement of 130 semester hours every candidate for a degree, up to and including those graduating in 1963, must present at least twenty-four semester hours of course work in one department (to be known as his Major), and at least eighteen semester hours of course work in another department (to be known as his Minor.)* Both Major and Minor must be selected before the beginning of the junior year. The Minor must be chosen with the advice and approval of the chairman of the major department. A student accepted as a Major in any department has a right to remain in that department as long as he is in college.

Under the new general requirements effective for the class entering in September, 1960, and thereafter, to assist the student in securing breadth in the major area of concentration a Minor is no longer required for graduation.

Examinations

Candidates for degrees are required to take end of course examinations, comprehensive examinations in the major field, and the Graduate Record Examination in the major field.

Comprehensive Examinations

Each student must take, during the final semester of his college course, an examination set by his major department. This examination may be written, oral, or both. The purpose of the examination is to test the student's understanding of general principles, as well as his possession of facts, and to promote the student's integration and application of the knowledge acquired in the field of concentration.

Graduate Record Examination

Candidates for degrees must take the Advanced Test of the Graduate Record Examination in their major field. This examination is prepared and scored by the Educational Testing Service. The tests cover the entire field of concentration. The results are made available to the student and become a part of his permanent record.

Residence Requirement

Degrees will be conferred only upon candidates who have earned at least 30 semester hours in residence. Credits earned in evening classes and summer school work on campus are residence credits.

^{*} Students enrolled in professional curricula (Music Education, Economics and Business Administration, Industrial Chemistry, Elementary Education, and certain other pre-professional curricula) are not required to take a Minor.

Grade Point Average

Candidates for degrees also must obtain a cumulative grade point average of 1.75, computed in accordance with the grading system indicated below.

In addition candidates must earn a grade point average of 2.0 or C in the major field of study.

System of Grading and Quality Points

The work of a student in each subject is graded A, B, C, D, or F. These grades have the following meanings: A, the student has completed the minimum requirements at a high quality level and has presented additional work beyond the requirements (could well be an annotated grade); B, the student has completed the minimum requirements at a high quality level; C, the student has completed the minimum requirements for the course at a satisfactory level; D, the student has completed the minimum requirements of the course at a very low level; F, the student has failed to complete the minimum requirements of the course. When a grade of F has been received, the student may not proceed with any part of the course dependent upon the part in which the grade of F has been received. If a student fails in a subject twice, he may not register for it a third time.

In addition to the above grades the symbols "I," "W," "WP," and "WF" are used on grade reports and in college records. "I" indicates that the work is incomplete (that the student has postponed with the consent of the instructor, certain required work), but otherwise satisfactory. This work must be completed within the semester following, or the "I" will be converted to an F.

W indicates withdrawal from a course any time within the first six weeks of classes of a semester without prejudice to the student's standing. In case of withdrawal from a course after six weeks the symbol WP will be entered if the student's work is satisfactory, and WF if his work is unsatisfactory. The grade WP will be considered as without prejudice to the student's standing, but the grade WF will be counted as an F. If a student withdraws from a course after twelve weeks, without a reason satisfactory to the Registrar, a grade of WF will be recorded.

For each semester hour credit in a course in which a student is graded A, he receives 4 quality points; B, 3; C, 2; and D, 1. F carries no credit and no quality points.

Transfer Students

Students transferring from other institutions must secure an average grade of C or better (a quality point average of at least 2.0) in work taken at Lebanon Valley College.

Registration Paper Work

General Requirements*

In effect for students entering prior to September, 1960.

COOPERATIVE ENGINEERING PROGRAM

ADVISER: DR. BISSINGER

Lebanon Valley College offers a cooperative program in Engineering whereby a student may achieve a liberal arts degree from Lebanon Valley College and also an engineering degree from the University of Pennsylvania or Massachusetts Institute of Technology.

A student electing to pursue this curriculum spends the first three years in residence at Lebanon Valley College. At the end of these three years he may, if recommended, go to the University of Pennsylvania or Massachusetts Institute of Technology for two additional years of work in engineering. Upon the successful completion of the five years of study, the student will receive two degrees: one from Lebanon Valley College (the Bachelor of Science degree) and an engineering degree from the University of Pennsylvania or Massachusetts Institute of Technology.

COOPERATIVE FORESTRY PROGRAM

Adviser: Assistant Professor Bollinger

Lebanon Valley College offers a program in forestry in cooperation with the School of Forestry of Duke University. Upon successful completion of a five-year coordinated course of study, a student will have earned the Bachelor of Science degree from Lebanon Valley College and the professional degree of Master of Forestry from the Duke School of Forestry.

A student electing to pursue this curriculum spends the first three years in residence at Lebanon Valley College. Here he obtains a sound education in the humanities and other liberal arts in addition to the sciences basic to forestry. Such an education does more than prepare a student for his later professional training; it offers him an opportunity to develop friendships with students in many fields, expand his interests, broaden his perspective, and fully develop his potentialities.

The student devotes the last two years of his program to the professional forestry curriculum of his choice at the Duke School of Forestry. Since Duke offers forestry courses only to senior and graduate students, the student from Lebanon Valley finds himself associating with a mature student body. He is well prepared for further personal and professional development.

Candidates for the forestry program should indicate to the Director of Admissions of Lebanon Valley College that they wish to apply for the Liberal Arts-Forestry Curriculum. Admission to the college is granted under the same conditions as for other curricula. At the end of the first semester of the third year the college will recommend qualified students for admission to the Duke School of Forestry. Each recommendation will be accompanied by the student's application for admission and a transcript of his academic record at Lebanon Valley College. No application need be made to the School of Forestry prior to this time.

The following curriculum is recommended for students taking work under this program. Each student selects one of the curricula indicated for the fifth year.

MEDICAL TECHNOLOGY CURRICULUM

ADVISER: DR. WILSON

Admission

Each applicant for admission to this program should secure approval by the School for Medical Technologists for the status of pre-registered students, to be admitted on the successful completion of the academic part of the curriculum at the college. The School for Medical Technologists shall be the final judge of a student's qualifications to pursue its curriculum.

Curriculum

The first three years will be spent at Lebanon Valley College in pursuit of the following program of study which include all the general requirements for graduation and certain courses especially suitable as preparation for the study of medical technology.

Following the completion of this curriculum the student will spend twelve months at the Harrisburg Hospital School for Medical Technologists or another approved school, in the pursuit of its regular curriculum as prescribed by The American Society of Clinical Pathologists. On the successful completion of both phases of the curriculum the student will be awarded the degree of Bachelor of Science in Medical Technology by Lebanon Valley College.

PRE-MEDICAL, PRE-DENTAL and PRE-VETERINARY CURRICULA

Adviser: Dr. Wilson

Students contemplating admission to Medical, Dental, or Veterinary Colleges should pursue a science program with a major in either biology or chemistry. They should register their professional intentions with the adviser of these programs by the end of their freshmen or sophomore years. At that time their work will be reviewed and provision made to meet the special requirements of the colleges of their choice.

All students planning to enter the medical profession should confer with the pre-medical adviser as to the dates for medical aptitude tests

and other special requirements.

NURSING EDUCATION

Lebanon Valley College and Wilkes College have entered into a cooperative program whereby nurses working in the vicinity of Annville and Lebanon may earn a degree in Nursing Education from Wilkes College by taking their academic credits on the campus at Lebanon Valley College and their professional credits at Wilkes College, either in extension at the hospital or in residence at Wilkes-Barre.

The usual residence requirements for a degree in Nursing Education may be satisfied by taking one-half the work on the campus at Lebanon

Valley College and the other one-half at Wilkes College.

NURSING

ADVISER: DR. WILSON

The five-year Nursing Plan offers to young women intending to enter the field of nursing an opportunity to obtain a liberal arts education in connection with their nurses' training.

Lebanon Valley College has an affiliation with the Harrisburg Hospital School of Nursing for a five-year curriculum in nursing. Students may enter other schools of nursing by mutual agreement.

Curriculum

The first two years will be spent at Lebanon Valley College in pursuit of the following program of study.

First Year				
		Ho	urs edit	
Course Number	Course Title	1st Sem.	2nd Sem.	
Biology	General Biology	4	4	
English 10a, 10b	English Composition	3	3

		—	—	
		16	16	

The next three years will be spent at the School of Nursing in pursuit of the regular curriculum. At the end of these five years the student who has successfully completed both phases of the curriculum will be awarded the degree of Bachelor of Science in Nursing by Lebanon Valley College and the diploma in nursing by the School of Nursing.

TEACHING

Advisers: Dr. McKlyeen and Dr. Ebersole

Certification requirements in the various states make it imperative that prospective teachers begin planning their work during the freshman year in college. The planning should take into consideration requirements in professional education and requirements in academic subject matter.

Certification requirements for teaching in the Commonwealth of Pennsylvania were revised recently to become effective in 1963. These new requirements are available through the major adviser or through the Chairman of the Department of Education.

The requirements in effect up to 1963 are listed below.

A. Requirements in Professional Courses for Certification in Pennsylvania

- Professional courses designed to meet Elementary Certification requirements.
 The provisional college certificate may be issued to an applicant who has completed an approved four-year college curriculum in the elementary field including courses in education distributed as follows:

 - b. Educational Psychology (General Psychology is a prerequisite) 3 sem. hrs.
 - c. Thirty semester hours of approved courses in the field of elementary education including three hours each in Teaching of Music, Teaching of Art, and Health and Safety Education, and six to twelve semester hours of elementary student teaching. See curriculum outlined on pages 62-63.
- 2. Professional courses designed to meet Secondary Certification requirements. The provisional college certificate may be issued to an applicant who has completed an approved four-year college curriculum including courses in education distributed as follows:
 - a. Introduction to Education 3 sem. hrs.
 - b. Educational Psychology (General Psychology is a prerequisite) 3 sem. hrs.

 - d. Electives in secondary education from courses listed below . . 6 sem hrs.

Educational Measurements

History and Philosophy of Education

Principles of Guidance Organizations and Administration

Visual and Sensory Techniques

Principles and Techniques of Secondary School Teaching

Special Methods

B. Requirements in Academic Subject Matter, Secondary Field

- 1. Academic subjects will be written on the college certification on the completion of eighteen semester hours of approved credit in each field:
 - a. English
 - b. Mathematics
 - c. Any foreign language
 - d. Geography
 - e. History
 - f. Social Studies:
 - i. Nine semester hours in history
 - ii. Nine semester hours in social science, including not less than three semester hours each in sociology, economics, and political science.
 - g. Science:
 - i. Biological Science—a minimum of six semester hours each, in botany and zoology, and six semester hours in either field or in courses definitely related to the biological sciences.
 - ii. Physical Science—a minimum of six semester hours each, in physics and chemistry, and six semester hours in either field or in courses definitely related to the physical sciences.
 - iii. General Science:
 - (1) General science will be written on a college certificate on the completion of eighteen hours in any or all of the sciences.
 - (2) Certification for any of the specialized sciences is considered a valid certificate for teaching general science.
- 2. For all college provisional certificates a basic course in the History of United States and Pennsylvania is required.

ELEMENTARY EDUCATION

ADVISER: DR. EBERSOLE

Courses of Study by Divisions and Departments

Course Numbering System

Courses are numbered as follows: 1-19 indicates courses offered at the freshman level; 20-29 indicates courses offered at the sophomore level; 30-39 indicates courses offered at the junior level; 40-49 indicates courses offered at the senior level; 101-132 indicates courses in applied music.

If the year is not indicated after a course, it is understood that the course is offered every year. Courses that continue throughout the year are listed in two ways. If either semester may be taken as a separate unit, without the other semester, the course will be listed as a and b. For example, a student may take English 21b even though he has not had English 21a and does not expect to take it. But if no letter is indicated with the course number, a student may not enter the course at mid-year.

Course Credit

Semester hours of credit, class hours per week, and laboratory hours per week are indicated by three numbers immediately following the course title, i.e., "4:2:4 per semester" following "Biology 18a–18b" means four semester hours of credit, two classroom hours per week, and four laboratory hours per week each semester.

Courses of Study by Divisions

Divisional Organization

In order to provide integrated courses, cutting as they do across departmental lines, and to attain greater efficiency in administration, divisional organization has been initiated. Departments of study which fall within related areas of learning are organized into divisions, each with a director. Five divisions have been thus organized.

I. The Division of Science comprises the Departments of Biology, Chemistry, Mathematics, Physics, and Psychology. Professor

Neidig, Director.

II. The Division of Humanities comprises the Departments of English, Foreign Languages, and Philosophy and Religion. Professor Ehrhart, Director.

III. The Division of Social Sciences comprises the Departments of Economics and Business Administration, History and Political Science, and Sociology. Associate Professor Shay, Director.

IV. The Division of Teacher Education comprises the Departments of Elementary Education, Secondary Education, and Music Education. Professor Gilbert D. McKlyeen. Director.

V. The Division of Physical Education and Athletics. Assistant

Professor Marquette, Director.

Integrated Studies

Statement of Aims

The program of integrated studies, as offered at Lebanon Valley College, is designed to give the student an adequate conception of the nature of the physical universe in which he lives: to awaken in the student an intelligent interest in personal, family, social, and civic problems: to present in an orderly fashion various rival views of life in the belief that the student, once aware of his differences, may intelligently shape his own attitudes: to provide the student with an enhanced appreciation of the highest reaches of the human spirit as found in literature, art, and music: to prepare the student to live with himself and with others. Integration will not indeed provide ready-made answers to all problems, but will give the student a better understanding of the problems and an increased awareness of the historical backgrounds that brought them into being. Behind the plan of integrated studies is the fundamental premise that students will go into the world not only to follow chosen professions, but also as human beings confronted with the wide variety of choices in thinking and action which modern living entails.

It should be explicit at this point that Lebanon Valley College does not oppose specialization. For the student who has chosen his profession, integrated courses will provide the foundation on which specialization may be built. In addition, by showing how his chosen subject fits into the larger pattern, integration will make this specialization more meaningful and therefore more effective. For the student who is uncertain about his plans for the future, integrated studies will provide opportunity to explore wide areas of knowledge and experience, and will aid him in discovering his own aptitudes and interests. These courses should better equip students to assume their responsibilities as members of their local communities and as citizens of a democracy. To achieve this four courses are offered.

Each course in integrated studies is administered by the appropriate division and differs from departmental courses in that it is not confined to one branch of knowledge, but incorporates subject matter from various departments within the division. By this means the student is enabled to coordinate his knowledge, one branch with another, the various branches with his chosen specialty and with the problems of living in a complex environment.

DIVISION OF SCIENCE

10. Integrated Sciences.

3:2:2 per semester.

A study of the fundamental aspects of measurement—time, space, mass, and energy, and the modern concepts of structure, property, behavior, and energy of living and non-living matter.

Laboratory fee, \$10.00 per semester.

DIVISION OF HUMANITIES

20. Humanities. Man's Quest for Values as Recorded in the Literature of the Western World.

4:4:0 per semester 1960–1961. 3:3:0 per semester 1961–1962 and thereafter.

A detailed study will be made of significant material from the ancient and modern literatures of continental Europe, and from English and American literature. The aim will be to trace the developing mind of man and the growth of his sense of aesthetic and ethical values. Attempts will be made, throughout the course, to show how developments in literature are paralleled by similar developments in art and music. To this end free use will be made of picture exhibits, slides, motion pictures, and phonograph records. One aim of the course will be to provide the student with genuinely aesthetic experiences.

DIVISION OF SOCIAL SCIENCES

15. The Social Sciences. A Survey of Man's Relationship to Society.

3:3:0 per semester.

A course to introduce the student to the fields of economics, history, political science, anthropology, and sociology through the integration of subject matter from these fields. It will include the origins and functioning of contemporary society and the procedures used in the evaluation of material. Materials will include, in addition to the library references, the daily newspaper, paper-bound books, and visual aids.

30. The Social Sciences. A Survey of Man's Relationship to Society.

4:4:0 per semester 1960-1961. 3:3:0 per semester 1961-1962.

This course is designed to provide the student with an understanding of the origins and operation of contemporary society. It will offer training helpful in making thoughtful appraisals of social situations, and it will integrate subject matter from the fields of history, economics, political science, anthropology, and sociology by a study of the historical development and current functioning of institutions in these areas. Materials used will include paperbound books, library references, visual aids and the daily newspaper.

Courses of Study by Departments

ART

INSTRUCTOR, MR. BATCHELOR

10. Beginning Painting.

2:2:0 per semester.

A beginning course in painting in water colors and oils with stress on composition and the use of colors and their mixing.

Offered in evening classes.

11. History and Appreciation of Art.

3:3:0. Either semester.

A study of the various forms of art—painting, sculpture, and architecture—of the western world. Attention is given to the major trends and periods of the western tradition as exemplified by significant artists and their work. The interrelation of the arts—art, music, and literature—is emphasized.

BIOLOGY

PROFESSORS WILSON AND LIGHT; ASSISTANT PROFESSOR BOLLINGER

The work outlined in the following courses in biology is intended to develop an appreciation of man's relation to his universe, to acquaint students with those fundamental concepts necessary for the proper interpretation of the phenomena manifested by the living things with which they are surrounded, and to lay a foundation for specialization in professional courses in biology.

The courses are designed to prepare students for the work in medical schools, schools for medical technologists, hospital schools for training of nurses, for graduate work in colleges and universities, for teaching the biological sciences in high schools, and for assistantships in university and experiment station laboratories in the departments of agriculture and the United States Biological Survey.

Major: Biology 18 and twenty additional hours.

Minor: Biology 18 and ten additional hours.

18a-18b. General Biology.

4:2:4 per semester.

Representative forms of plant life are studied the first semester and representative forms of animal life the second semester. Structure, and biological laws and principles are stressed.

Laboratory fee, \$10.00 per semester.

21. Microbiology.

4:2:4. First semester.

A study of bacteria, molds, yeasts, richettsias, and viruses, including laboratory technique in sterilization and in methods of cultivating, isolating, and staining bacteria.

Required of those preparing for medical technology. Laboratory fee,

\$10.00.

22. Genetics.

4:3:2. First semester.

This course deals with the mechanism and laws of heredity and variation, and their practical applications.

Laboratory fee, \$10.00.

28. Botany.

4:2:4. Second semester.

The course is designed to deal with the broader aspects of plants, emphasizing a study of the taxonomic, ecological, evolutionary and pathological principles. Consideration will be given to the local flora, with emphasis being placed on those features which indicate relationships of the various families.

Laboratory fee, \$10.00.

29. Biology of the Chordates.

4:2:4. First semester.

The anatomy of the chordates is studied from a comparative viewpoint with particular attention given to the correlation of structure to living condition. Laboratory work involves dissection and demonstrations of representative chordates and the use of literature by which local forms may be identified.

Laboratory fee, \$10.00.

30. Vertebrate Histology and Microtechnique.

4:2:4. First semester.

This course deals with the cells, tissues, and organ systems of the vertebrate body, with special reference to the mammal. Modern micro-technical procedures are included in the course.

Laboratory fee, \$10.00.

31. Vertebrate Embryology.

4:2:4. Second semester.

A survey of the principles of development, with laboratory work, on the frog, the chick, and the pig.

Laboratory fee, \$10.00.

32. Animal Physiology.

4:2:4. Second semester.

This course presents the basic concepts of physiology, with special reference to man.

Laboratory fee, \$10.00.

34. Plant Physiology.

4:2:4. First semester.

This course acquaints the student with the various functions of parts of plants. It includes lectures and experimental work on the processes of photosynthesis, nutrition, respiration, growth, the role of hormones, digestion, absorption, etc.

Laboratory fee, \$10.00.

41. Natural History and Ecology.

4:2:4. Second semester.

A course designed to acquaint the student with the natural history and ecology of biological forms, their collection, culture and preservation. Attention is also given to the preparation of charts, models, taxidermy, skeletons, and photography.

Laboratory fee, \$10.00.

44. Special Problems.

1 or 2 hours credit per semester.

Limited to students majoring in biology who have had ample courses in the department and whose records indicate that they can be encouraged to take part in research or can work independently on research problems in which they have a special interest.

It is also for those who have had most of the courses required for their major but who may have a special need for experience in fields not listed in the course offerings of the department.

Laboratory fee: \$2.50 per credit hour per semester.

40.1. Biology Seminar.

1:1:0. Second semester.

Readings, discussions, and reports on the modern trends in biology. Required of all biology majors.

CHEMISTRY

Professor Neidig; Assistant Professors Hollinger, Kline, Lockwood, Griswold

The aims of the department are: (1) to provide students majoring in chemistry rigorous training in the principles and applications of modern chemistry; (2) to provide students interested in the teaching profession an opportunity to become acquainted with the teaching of science; and (3) to offer students interested in advanced study or in industrial employment professional training in chemistry.

Juniors and seniors may participate in the departmental honors program if they have demonstrated a high scholastic ability and proficiency in both experimental and theoretical chemistry. To be recommended for departmental honors, a student is required: (1) to submit a thesis based on extensive laboratory investigation of an original problem; (2) to defend the thesis before an appropriate examining committee.

For outline of course leading to the degree of B.S. in Chemistry, see page 48.

Major: Chemistry 12, 20, 21, 22, and six additional hours.

Minor: Chemistry 12 and ten additional hours with the consent of the Chairman of the Department of Chemistry.

B.S. in Chemistry (certified by the American Chemical Society): Chemistry 12, 20, 21, 22, 30, 31, 34, 40, 41, and 2 hours of 44.

12. General Inorganic Chemistry.

4:3:3 per semester.

A systematic study of fundamental principles and of the sources, properties, and uses of the important elements and compounds.

Laboratory fee, \$12.00 per semester. Breakage deposit, \$10.00 per semester.

20. Qualitative Inorganic Analysis.

4:2:6. First semester.

A study of chemical reactions and equilibria in solutions.

Prerequisite: Chemistry 12. Laboratory fee, \$12.00. Breakage deposit, \$10.00.

21. Quantitative Inorganic Analysis.

4:2:8. Second semester.

A coverage of the fundamentals of gravimetric, volumetric and colorimetric analysis. The presentation of the theory of quantitative analytical procedures.

Prerequisite: Chemistry 20. Laboratory fee, \$12.00. Breakage deposit, \$10.00.

22. Organic Chemistry.

4:3:4 per semester.

A study of the preparation, properties, and uses of the aliphatic and aromatic compounds with emphasis on the principles and reaction mechanisms describing their behavior.

Prerequisite: Chemistry 12. Laboratory fee, \$12.00 per semester. Breakage deposit, \$10.00 per semester.

30. Advanced Quantitative Analysis. (1)

3:2:4. First semester.

The study of the methods employed for the sampling and analysis of industrially important materials. The techniques involved include polarography, chromatography, spectrophotometry, polarimetry, spectrography, and potientiometry.

Prerequisite: Chemistry 21. Laboratory fee, \$12.00. Breakage deposit, \$10.00.

31. Qualitative Organic Analysis.

3:1:8. Second semester.

A course in the principles and methods of organic analysis. The laboratory work includes the identification of organic compounds, the separation of mixtures and the interpretation of laboratory data.

Prerequisite: Chemistry 22. Laboratory fee, \$12.00. Breakage deposit,

\$10.00.

⁽¹⁾ In 1961-1962 and thereafter Chemistry 40 will be a prerequisite for Chemistry 30, 34, 41, 44.

34. Advanced Inorganic Chemistry.

3:3:0. First semester.

A study of the elements based upon the periodic table including a presentation of modern concepts of atomic and molecular structure.

Prerequisites: Chemistry 21 and Physics 22.

35a-35b. Laboratory Techniques.

2:1:4 per semester. Offered 1961-1962.

A course designed to introduce the student to advanced laboratory methods by the preparation and analysis of inorganic and organic compounds.

Prerequisites: Chemistry 21 and 22. Laboratory fee, \$16.00 per semester.

Breakage deposit, \$10.00 per semester.

40. Physical Chemistry.

4:3:3 per semester.

A course in the physical theories of matter and their applications to systems of variable composition.

Prerequisites: Chemistry 21, Physics 22, and Mathematics 11; prerequisite

or corequisite: Chemistry 22.

Laboratory fee, \$12.00 per semester. Breakage deposit, \$10.00 per semester.

41. Advanced Organic Chemistry.

3:3:0. First semester.

A consideration of the structure of organic compounds and the mechanisms of homogeneous organic reactions.

Prerequisites: Chemistry 21 and 22.

43a-43b. Physical Bio-Chemistry.

3:3:0 per semester.

A course in the physical and organic aspects of living systems.

Prerequisite: Chemistry 22.

44a-44b. Special Problems.

2:1:4 per semester. A maximum of eight semester hours credit may be earned in this course.

Intensive library and laboratory study of topics of special interest to advanced students in the major areas of chemistry.

Prerequisites: Chemistry 21 and 22, and the consent of the Chairman of the Department. Laboratory fee, \$16.00 per semester. Breakage deposit, \$10.00 per semester.

ECONOMICS AND BUSINESS ADMINISTRATION

ASSOCIATE PROFESSOR RILEY;

Assistant Professors Tom and Egli

The department aims to give students a thorough training in the essential principles and fundamentals of business and economics. At the same time it offers sufficient electives to provide students preparing for a business career, government civil service, the teaching profession, law schools or graduate schools, with a general cultural education.

In order to receive departmental honors, a student is required to: (a) apply for honors by the end of the sophomore year and do preliminary work for one year; (b) be admitted, upon basis of acceptable scholarship, to full status in the honors program by the end of the junior year; enroll in the Economics Seminar and devote both semesters of the senior year to internship, experimentation, research, reading, and/or writing; (c) take a comprehensive examination; (d) appear before an examining committee comprised of the departmental staff and a faculty representative of the department in which the student has taken a minor.

For an outline of the suggested course in Economics and Business Administration see pages 52–53.

Major: Economics 20, 23, and eighteen additional hours in economics as approved by the adviser (These additional hours should include Economics 35, 36, 40.2, 48.).

Economics 20 is a prerequisite for all courses in economics of a higher number except 23 and 32.

Minor: Economics 20 and twelve additional hours in economics with the consent of the Chairman of the Department of Economics and Business Administration.

ECONOMICS

10. Economic Geography.

3:3:0. First semester.

Problems studied include: the geographical distribution, the significance and consequences of uneven production, and solutions to the surplus and deficit problem of economic resources. Attention is given to the political, social, and cultural aspects of world geography, but with emphasis on the economic aspects. Interrelationships between climate, soil, rainfall, and vegetable resources are discussed.

11. Introduction to American Business and Industry.

3:3:0. Second semester.

A survey of the development of the American economic system as a whole, the nature of the various leading industries—agricultural and non-agricultural, consumer goods and producer goods, and the relationship between these industries and the broader aspects of our national economic life.

20. Principles of Economics.

3:3:0 per semester.

An introductory course in economic principles: consumption, production, banking and monetary theories and policies, governmental activities and fiscal policies, price system and allocation of resources, price levels and business fluctuation, theory of employment and income, and international economics.

Prerequisite for courses of a higher number within the department, except 23 and 32.

23. Principles of Accounting.

4:3:2 per semester.

Accounting principles and their application in service, trading, and manufacturing businesses operating as single proprietorships, partnerships, and corporations. Topics studied include: the accounting cycle—journalizing, posting, worksheet, financial statements, adjusting, closing; basic partnership problems—formation, distribution of profits, dissolution; corporation and manufacturing accounting; basic problems of depreciation, depletion, valuation; introduction to analysis, interpretation, and use of financial statements.

Accounting, the language of business, provides a tool to implement work

in other fields of business administration.

30. Intermediate Accounting.

3:3:0. First semester. Offered 1960-1961.

Intensively covers valuation accounting relating to working capital items—cash, temporary investments, receivables, inventories, current liabilities; non-current items—investments, plant and equipment, intangible assets and deferred charges, and long-term liabilities; and corporate capital. Includes nature of income, cost, and expense; statement of source and application of funds; and statement preparation and analysis. Attention is given to relevant official pronouncements in accounting. CPA examination accounting theory questions are utilized.

Prerequisite: Economics 23.

31. Advanced Accounting.

3:3:0. Second semester. Offered 1960-1961.

Accounting for joint ventures; special sales procedures—installment, consignment, agency and branch; parent and subsidiary accounting—consolidations and mergers; fiduciary and budgetary accounting—statement of affairs, receivership, estates and trusts, governmental accounting; foreign exchange; insurance; actuarial science and applications. Attention is given to relevant official pronouncements in accounting. CPA examination accounting problems are utilized.

Prerequisite: Economics 30.

32. Business Law.

3:3:0 per semester. Offered 1960-1961.

Elementary principles of law generally related to the field of business including contracts, agency, sales, bailments, insurance, and negotiable instruments.

34. Retailing and Sales Management.

3:3:0. First semester. Offered 1961-1962.

As a branch of applied economics, a course in the application of economic theory in retailing and the methods of retail administration in organizing, purchasing, pricing, selling, planning, financing, and controlling. To bridge the gap between the understanding and the application of retailing principles, students are required to prepare and discuss a number of cases pertaining to some specific areas of retailing.

Prerequisite: Economics 35 or consent of instructor.

35. Marketing.

3:3:0. Second semester.

As a branch of applied economics, this course deals with (1) the application of economic theory in the distribution of economic goods on the manufacturers' and wholesalers' level; (2) the methods of analysis on the product, the consumer, and the company, and (3) the administrative decisions on product planning, distribution channels, promotional activities, sales management, and price policy. To bridge the gap between the understanding and the application of marketing principles, students are required to prepare and discuss a number of cases pertaining to some specific areas of marketing.

36. Money and Banking.

3:3:0. Second semester.

Nature and functions of money and credit, credit instruments and the money market, development and role of commercial banking and central banking, and structure and functions of the Federal Reserve System. Monetary and banking theory, policy, and practice. Influence on prices, level of income and employment, and economic stability and progress.

37. Public Finance.

3:3:0. First semester. Offered 1961-1962.

Revenues and expenditures and economic functioning of the federal, state, and local governments; principles of taxation—shifting, incidence, and burden; influence on incentives, income distribution, and resource allocation; economic and social aspects of public spending; budgetary control and debt management; fiscal policy and economic stability.

Prerequisite: Economics 36 or consent of instructor.

38. International Economics.

3:3:0. Second semester. Offered 1960-1961.

A study of theories of trade; capital movement; mechanism for attaining equilibrium; economic policies such as tariff, quota, monetary standards and exchange, state trading, cartel, and other economic agreements; the International Monetary Fund and the International Bank for Reconstruction and Development.

42. Income Tax Accounting.

3:3:0. First semester. Offered 1961-1962.

An analysis of the Federal Income Tax Law and its applications to individuals, partnerships, fiduciaries, and corporations; case problems; preparation of returns.

Prerequisite: Economics 23, or consent of instructor.

43. Cost Accounting.

3:3:0. Second semester. Offered 1961-1962.

Industrial accounting from the viewpoint of material, labor, and overhead costs; the analysis of actual costs for control purposes and for determination of unit product costs; assembling and presentation of cost data; selected problems. Prerequisite: Economics 23.

44. Corporation Finance.

3:3:0. First semester. Offered 1960-1961.

A study of organizing a business, financing permanent and working capital needs, managing income and surplus, expanding through internal growth and combination, recapitalization and reorganization. Forms of business organization; charter and by-laws; directors, officers, and stockholders; stocks and bonds; dividend policy; concentration and anti-trust legislation.

45. Investments.

3:3:0. Second semester. Offered 1960-1961.

Development and role of investment and its relation to other economic, legal, and social institutions. Investment principles, media, machinery, policy, and management are discussed. Financial statement analysis stressed.

Prerequisite: Economics 44 or consent of instructor.

48. Labor Problems.

3:3:0. First semester.

Analysis of the American labor movement; theories, history, structure, and functions of unionism; individual and collective bargaining policies and practices; labor legislation; grievances; arbitration.

49. Personnel Administration and Industrial Management.

3:3:0. Second semester. Offered 1961-1962.

Principles of scientific management: planning, organizing, staffing, directing and coordinating, and controlling. Personnel policies and practices—recruitment, selection, testing, placement, training, merit rating, job evaluation, wage and salary administration, health and safety, personal and group relations, employee benefits and services, time and motion study, work simplification, labor turnover and morale, efficiency records and incentives, standards, and personnel research.

Prerequisite: Economics 48 or consent of instructor.

40.1. History of Economic Thought.

3:3:0. Second semester. Offered 1961-1962.

The evolution of economic thought through the principal schools from Mercantilism to the present. Attention will be given to the analysis of the various theories of value, wages, interest, rent, profit, price level, business cycles, and employment, and to the influences of earlier economic ideas upon current thinking and policy-making.

40.2. Economic Analysis.

3:3:0. First semester.

The basic economic problem in Western societies is the optimum allocation and full employment of relatively scarce resources for maximum human satisfaction among competing ends. The nature of different economic theories and the application of these theories to the analysis and solution of economic problems. Micro-economics and macro-economics in a closed economy.

40.3. Seminar and Special Problems.

3:3:0. Hours to be arranged.

Independent study and research under the direction and supervision of the department staff in one of the following areas: accounting, economics, or business administration.

Open to majors and minors who have evidenced suitable scholarship within the department. Required of all honors candidates.

DRAWING

10. Engineering Drawing.

3:3:0. Second semester.

Use of drawing instruments, lettering, sketching, orthographic projection, perspective drawing, working drawings, tracing and blue printing.

EDUCATION

PROFESSOR MCKLVEEN; ASSOCIATE PROFESSOR EBERSOLE; ASSISTANT PROFESSOR BOWMAN; INSTRUCTORS BATCHELOR AND HERR

The aim of the Department of Education is to acquaint students with the art of teaching and to develop in each prospective teacher a full realization of his responsibilities in this profession.

Courses are provided to comply with state certification in the elementary and secondary fields of the public schools.

For a statement of requirements for those planning to enter the teaching profession, see pages 61–63.

Basic Education Courses

20. Social Foundations of Education.

3:3:0. First semester.

An introduction to the field of education through the study of the American educational system, the place of the school in society, the training and function of the teacher.

Required for elementary and secondary certification.

Educational Psychology (Psychology 23) Required for elementary and secondary. See page 119.

30. Educational Measurements.

3:3:0. First semester.

A study of the principles of validity and reliability, appraisal and construction of test items and consideration of the uses of test results.

Recommended elective in elementary and secondary fields.

Prerequisite: Psychology 20. Laboratory fee, \$1.00.

45. Visual and Sensory Techniques.

3:3:0. Second semester.

Psychological bases for sensory aids; study and appraisal of various aids; use of apparatus; sources of equipment and supplies.

Recommended elective in elementary and secondary fields. Open only to seniors preparing to teach or enter the ministry.

Prerequisites: Education 20, Psychology 20, 23. Laboratory fee, \$4.00.

Elementary Education

12. Professional Orientation and Elementary School Curriculum.

3:3:0. Second semester.

A study of curriculum development in elementary education in relation to aims, content, school organization, controversial issues, and trends throughout the history of education. It includes constitutional and statutory aspects of school law and the legal status of the teacher.

21. Introduction to Music.

3:3:0. First semester.

Fundamentals of music, movement to music, study of child voice, materials and methods for the different grades, and a survey of the literature used in the public schools.

22. Teaching of Music.

3:3:0. Second semester.

A continuation of the course in Introduction to Music with emphasis on the teaching of music in the elementary grades.

23. Teaching of Natural Science.

3:3:0. First semester.

A survey of the science content material and the methods of teaching science in the elementary grades. An interpretation of a child's science experiences and the development of his scientific concepts.

24. Exploring Art.

3:3:0. First semester.

The fundamental principles and techniques of art and their application to the needs of children in the elementary grades.

Laboratory fee: \$1.50.

25. Games and Activities.

1:2:0. First semester.

A study of the physical development of the child and of the games and activities appropriate to the various elementary grades. Preparation of lesson plans, outlines, and other teaching aids for use in classroom, gymnasium, and playground.

26. Exhibitions and Demonstrations.

2:2:0. Second semester.

The planning of demonstrations, exhibitions, circuses, festivals, water shows, variety shows, field days, May Days, holiday programs, sports carnivals, and pageants for the elementary grades.

31. Teaching of Arithmetic.

3:3:0. First semester.

The historical development of mathematics, the results of educational research, and methods of teaching. Practice in the use of child psychology in the development of functional arithmetic, diagnostic methods, and remedial instruction.

32. Teaching of Art.

3:3:0. Second semester.

A course in the understanding of the child's approach to art and his changing needs for artistic expression showing the parallel in creative and mental development. It includes methods used for different age levels and classroom situations, the development of work units integrating art with other subject matter areas, sources of art materials, their selection and evaluation. Lesson plans are arranged in accordance with the natural development of the child.

Laboratory fee: \$1.50.

33. Teaching of Social Studies.

3:3:0. Second semester.

A study of the principles underlying the use of social studies in the elementary school, and desirable methods of teaching.

40. Student Teaching.

Nine semester hours credit. Second semester.

Open to seniors only. Each student must spend a minimum of 270 clock hours of actual teaching under approved supervision, including the necessary observation. Student teaching is part of a definitely planned program set up on the block system. Before registering for the course students are required to consult Dr. Ebersole.

Laboratory fee, \$40.00.

41a-41b. Teaching of Reading and Language Arts.

2:2:0 per semester.

The principles, problems, materials, and techniques involved in teaching reading, speaking, listening, and writing in the elementary schools.

43. Health and Safety Education.

3:3:0. Second semester.

Instruction in basic health facts and safety procedures in everyday life; sources, evaluation, and use of materials.

SECONDARY EDUCATION

31. History and Philosophy of Education.

3:3:0. First semester.

The historical developments of the American educational system are studied. Also, philosophers past and present are analyzed as to their effect in establishing educational trends and practices.

Open to juniors and seniors only, Recommended as an elective in Educa-

tion.

Prerequisites: Education 20, Psychology 20, 23.

40. Student Teaching.

Six semester hours credit. Either semester.

This course fulfills the Pennsylvania certification requirement:

The minimum in student teaching is based on not less than 180 clock hours of actual teaching under approved supervision, including the necessary observation, participation, and conference. Seven conference hours held on campus are also part of the program.

The program consists of twelve weeks of teaching and observing in the public schools. Students must arrange their schedules to have three consecutive

hours available five days a week with morning hours preferred.

Open to seniors only except by permission of the Head of the Department. Students having a grade point average less than 2.0 during their first three years in college will not be admitted. Before registering for the course, students must consult Dr. McKlveen.

Laboratory fee, \$40.00.

41. Principles of Guidance Organization and Administration.

3:3:0. Second semester.

The student is acquainted with the fundamental principles underlying the organization and administration of guidance programs.

Open to seniors only. Prerequisites: Education 20, Psychology 20, 23. Laboratory fee, \$1.00.

47. Principles and Techniques of Secondary School Teaching.

3:3:0. Second semester.

A study of principles, practices and methods including their significance to secondary school teaching.

Open to seniors only. Prerequisites: Education 20, Psychology 20, 23.

49. Special Methods.

3:3:0. Second semester.

This course covers the various approaches that may be employed in teaching. Techniques of teaching are demonstrated, classroom observations are made in the public schools, and successful high school teachers are invited to the class to share their teaching experiences.

Open to seniors only. Prerequisites: Education 20, Psychology 20, 23.

Summer Student Teaching Program.

Six hours credit. Six weeks of student teaching in the secondary field in the Derry Township Public Schools, Hershey, Pennsylvania.

For information concerning the Summer Student Teaching Program contact the Chairman of the Department of Education.

ENGLISH

PROFESSOR STRUBLE; ASSOCIATE PROFESSOR FABER;

Assistant Professors Bowman, Keller; Instructor Matlack

The purpose of the English Department is to afford students a vital contact with the literature of our language and to assist them to write and speak effectively.

Major: In addition to the required courses in English Composition (English 10a-10b) and Humanities (Integrated Studies 20): English 21a, 30a-30b, 31, 32, 35, 49, and three hours of electives.

Minor: In addition to the required courses in English Composition (English 10a-10b), and Humanities (Integrated Studies 20): English 21a, 31.

10a-10b. English Composition.

3:3:0 per semester.

A study of the principles of grammar, logic, rhetoric, and mechanics which enable men to communicate effectively.

11a-11b. Word Study.

1:1:0 per semester.

This course has a two-fold purpose: (1) to give the student some insight into linguistic processes, particularly as pertains to the growth of the English vocabulary; and (2) to increase the range of the student's vocabulary, in order that he may have greater mastery over his own native tongue. Problems of pronunciation and spelling go hand in hand with vocabulary building.

I.S. 20. The Humanities: Man's Quest for Values as Recorded in the Literature of the Western World.

See page 66

4:4:0 per semester 1960–1961. 3:3:0 per semester 1961–1962 and thereafter.

21a-21b. American Literature.

3:3:0 per semester.

First semester: a survey of American literature from the beginnings to the Civil War.

Second semester: a survey of American literature from the Civil War to the present day.

22. Public Speaking.

2:2:0. Either semester.

Basic principles of public speaking with practical training in diction and platform presence.

23. Advanced Composition.

2:2:0. First semester.

Principles and techniques of the short story, drama, and novel for students interested in creative writing. Extensive practice in the field of student's special interest.

24. Contemporary Literature.

2:2:0. Second semester.

A study of currents and cross-currents in the literature produced in England and America since World War I.

30a-30b. Shakespeare.

3:3:0 per semester.

A survey of English drama from its beginnings to the time of Shakespeare; a study of Shakespeare's history plays and their place in the Elizabethan world, and an analysis of Shakespearean comedy.

A study of Shakespeare's tragedies, problem comedies, and romantic

comedies.

31. History of the English Language.

3:3:0. First semester.

Historical study of English sounds, inflections, and vocabulary. Standards of correctness; current usage.

32. Chaucer.

2:2:0. Second semester.

Intended to give the student a reasonable familiarity with Chaucer; to provide a detailed picture of mediaeval life, culture, and thought, and to develop skill in the reading of earlier English.

33. Literature of the Victorian Period.

2:2:0. Second semester.

A survey of the major English poets and prose writers from 1830 to 1900.

35. Poetry of the Romantic Movement.

2:2:0. First semester.

A study of the principal poets of the early nineteenth century: Wordsworth, Coleridge, Byron, Shelley, and Keats.

37. Contemporary Drama.

2:2:0. First semester.

A survey of Continental, British, and American drama since 1890.

38. The Novel.

2:2:0. Second semester. Offered 1961-1962.

A study of the development of the novel in England from Richardson to Joyce.

40. Eighteenth Century Literature.

2:2:0. Second semester. Offered 1960-1961.

A survey of the principal English authors from Dryden to Blake.

49. Seminar in English.

3:3:0. Second semester.

Intensive review of the student's earlier work in English; systematic coverage of the gaps in the student's knowledge; synthesis of the whole.

The final examination in this course will constitute the comprehensive examination for the department.

Required of all English majors in their senior year. Prerequisites: I.S. 20 and prescribed courses for the English major.

FOREIGN LANGUAGES

PROFESSOR PIEL; ASSOCIATE PROFESSOR WEYDLING; ASSISTANT PROFESSOR BUTLER; INSTRUCTOR FIELDS

The immediate aim of this department is to assist the student to acquire a working knowledge of the language or languages which he chooses to study. The ultimate aim is to foster, through the study of foreign literatures, a broader and more sympathetic understanding of the life and thought of other peoples.

Major: The student may elect a major in one language, as indicated below, or a departmental major. The departmental major shall consist of at least eighteen hours, above the beginner's level, in one language and at least twelve hours in a second language.

Minor: See listings under the separate languages below.

FRENCH

Major: French 10, 20, and twelve additional hours of advanced work.

Minor: French 10, 20, and six additional hours of advanced work. Those preparing to teach French should take French 10, 20, and six additional hours of advanced work.

1. Elementary French.

3:3:0 per semester.

A beginning course in French. Its aim is to enable the student to write simple French sentences, to carry on a conversation in easy French, and to read French of ordinary difficulty.

10. Intermediate French.

3:3:0 per semester.

This is a continuation and extension of French 1, and includes further drill in the principles of grammar, practice in conversation, composition, and dictation, and more extensive reading.

Prerequisite: French 1 or two years of high school French.

20. French Literature of the Sixteenth and Seventeenth Centuries.

3:3:0 per semester. Offered on demand.

A survey of the literary history of the Renaissance and of the Classic periods in France.

30. French Literature of the Eighteenth and Nineteenth Centuries.

3:3:0 per semester. Offered on demand.

A study of the outstanding works of the Age of Enlightenment and of the Romantic, Realist, and Naturalist Schools of French literature.

40. The French Novel.

3:3:0 per semester. Offered on demand.

A study of the development of this *genre* in France, special attention being given to the later nineteenth century and contemporary novels.

41. French Drama

3:3:0 per semester. Offered on demand.

A study of the evolution of the drama in France, with extensive reading of plays of the seventeenth, eighteenth, and nineteenth centuries.

GERMAN

Major: German 10 and eighteen additional hours.

Minor: German 10 and twelve additional hours.

1. Elementary German.

3:3:0 per semester.

A beginning course in German. A study of the forms, syntax, and vocabulary of the language; reading of simple German and exercises in pronunciation and conversation.

10. Intermediate German.

3:3:0 per semester.

A further study of the language through selected readings, especially the short story; additional study of grammar, written and oral composition. Attention is also given to the historical and cultural background of the German people.

Prerequisite: German 1 or two years of high school German.

11. Scientific German.

3:3:0. Second semester.

A course to familiarize the student with the style and vocabulary of German scientific writing. Articles dealing with the various sciences are read for the purpose of gaining facility in reading and accuracy of interpretation.

May be taken in lieu of second semester of German 10.

22. Lessing and Schiller.

3:3:0 per semester. Offered on demand.

Introduction to the classical period of German Literature.

30. The German Drama.

3:3:0 per semester. Offered on demand.

Theory and development of the German drama with special emphasis on the nineteenth century.

40. The German Novel and Short Story.

3:3:0 per semester. Offered on demand.

Theory and development of the novel and short story with special emphasis on the nineteenth century.

41. Goethe.

3:3:0 per semester.

A study of Goethe's life, of his lyrics, ballads, and prose.

GREEK

Major: Greek 1, 10 and twelve additional hours.

Minor: Greek 1, 10 and six additional hours.

1. Elementary Greek.

3:3:0 per semester.

A beginning course in Greek. A study of forms and syntax, with easy prose composition. Selections from Xenophon's *Anabasis*.

10. Intermediate Greek.

3:3:0 per semester.

Xenophon: Selections previously unread. Selected readings from the Gospel according to St. John.

Prerequisite: Greek 1.

30. The Gospel According to St. Luke and Selected Readings.

3:3:0 per semester. Offered on demand.

Prerequisite: Greek 10.

40. Readings from the Book of Acts and the General Epistles.

3:3:0 per semester. Offered on demand.

Prerequisite: Greek 10.

LATIN

Note: Courses listed below will be given when there is sufficient demand.

10. Introduction to College Latin.

3:3:0 per semester.

For those who have had two years of preparation. Reading of high school grade, syntax, and composition.

11. Freshman Latin.

3:3:0 per semester.

The reading of Sallust's Catiline, Cicero's De Senectute or De Amioitia, and selections from Pliny's Letters. Study of syntax from text and grammar; Roman life and institutions; graded exercises in prose composition.

20. Readings from Livy, Horace, and Catullus.

3:3:0 per semester.

Study of syntax, style, and the history of Latin literature. Prerequisite: Latin 11.

31. Vergil.

3:3:0 per semester.

Readings from Books VII-XII of the *Aeneid* and other works of Vergil. Prerequisite: Latin 20.

SPANISH

Major: Spanish 10, 20, 30, and 40.

Minor: Spanish 10, 20, and six additional hours of advanced work.

1. Elementary Spanish.

3:3:0 per semester.

A beginning course in Spanish. The study includes the writing of simple Spanish sentences, carrying on conversation in easy Spanish, and reading Spanish of ordinary difficulty.

10. Intermediate Spanish.

3: 3:0 per semester.

A continuation and extension of Spanish 1 including further drill in the principles of grammar, practice in conversation, composition, and dictation, and extensive reading.

Prerequisite: Spanish 1 or two years of high school Spanish.

20. Spanish Literature of the Nineteenth Century.

3:3:0 per semester.

Survey of Spanish literature from the Middle Ages to the present. Intensive reading of the literature of the nineteenth century. Composition and conversation.

30. Spanish Literature of the Nineteenth and Twentieth Centuries.

3:3:0 per semester. Offered on demand.

Reading of the works of the writers of the Generacion del '98 and of the twentieth century. Composition and conversation.

40. Spanish Literature of the Sixteenth and Seventeenth Centuries.

3:3:0 per semester. Offered on demand.

Reading of outstanding authors of the sixteenth and seventeenth centuries. with emphasis upon Cervantes, Lope de Vega, and Calderon. Composition and conversation.

GEOGRAPHY

ASSOCIATE PROFESSOR EBERSOLE

10a-10b. World Geography.

3:3:0 per semester.

A basic course in geography to develop a knowledge and an appreciation of the worldwide physical factors in man's environment and of his adjustment to them. The course includes a study of the motions of the earth, land forms, bodies of water, soil, climate, vegetation, with special emphasis on man's political, economic, and social responses to them.

GEOLOGY

PROFESSOR LIGHT

20a-20b. Structural and Historical Geology.

2:2:0 per semester.

The first semester, structural geology, acquaints the student with the forces and dynamic agencies by which the earth has been formed and evolved into its present condition.

The second semester, historical geology, deals with the probable location of land and sea areas of each of the various geologic periods, and the development of the plants and animals which lived during these periods as identified by their fossil remains.

Laboratory fee, \$5.00 per semester.

GENERAL EDUCATION

See Integrated Studies, pages 64-66.

GERMAN

See Foreign Languages, page 83.

GREEK

See Foreign Languages, page 84.

HEALTH AND PHYSICAL EDUCATION

Assistant Professors Marquette, Bowman; Instructor Poad

The aims of this department are: (1) to encourage attitudes and habits of good total health; (2) to develop the student's physical capacities; (3) to provide activities which will enrich his leisure throughout life.

In addition to the family physician's report, the college requires a medical examination of all entering students during Freshman Week. It is strongly recommended that all entering students also undergo a thorough visual examination.

All students must pass skill and knowledge tests in team and individual sports before the physical education requirement is completed. The Physical Fitness Test is taken three times during the year.

Students are required to wear the regulation gymnasium outfit, which may be purchased at the college bookstore.

10. Health, Hygiene, and Physical Education (Men) (Women).

0:2:0 per semester.

Health and hygiene include instruction in biological needs, personal cleanliness and grooming, health conservation, effects of narcotics and alcohol.

(Men) The physical education activities include: for the first semester, touch football, soccer, volleyball, handball, squash, badminton, table tennis, and basketball; for the second semester, basketball, handball, table tennis, squash, badminton, softball, golf, trampoline, and weight-lifting. The Physical Fitness Test is taken three times during the year.

(Women) The physical education activities include: for the first semester, field hockey, archery, volleyball, stunts and tumbling, corrective postural exercises; for the second semester, basketball, softball, tennis, horseback riding, and

folk and American square dancing.

11. Health, Hygiene, and Corrective and Adaptive Physical Education (Men) (Women).

0:2:0 per semester.

Special activities, as prescribed by a physician, for students with physical handicaps or deficiencies.

Not open to students qualified for Health, Hygiene, and Physical Edu-

cation 10.

20. Physical Education (Men) (Women).

1:2:0 per semester. 0:2:0 per semester after 1960-1961.

(Men) Advanced instruction, practice, and testing: for the first semester, in touch football, soccer, volleyball, handball, squash, table tennis, badminton, and basketball; for the second semester, in basketball, handball, squash, badminton, softball, tennis, table tennis, golf, archery. The Physical Fitness Test is taken three times during the year.

(Women) First semester: Fundamental skills and practice in golf, archery, volleyball; conditioning exercises. Second semester: Advanced skills and practice in basketball and softball. Fundamental skills and practice in individual sport activities: tennis, riding, shuffleboard, badminton, bowling,

squash, table tennis; interpretive dancing.

21. Corrective and Adaptive Physical Education (Men) (Women).

1:2:0 per semester. 0:2:0 per semester after 1960-1961.

Special activities, as prescribed by a physician, for students with physical handicaps or deficiencies.

Not open to students qualified for Health and Physical Education 20.

HISTORY AND POLITICAL SCIENCE

ASSOCIATE PROFESSOR SHAY;
ASSISTANT PROFESSORS FEHR, FRITZ, GEFFEN

The aim of the Department of History and Political Science is to aid the student in acquiring such knowledge in the field of social studies as will serve as a background for an objective study of mankind's activities. It is hoped that such study will assist the student to arrive at opinions only after examining and evaluating evidence. It is believed that such training will help to promote good citizenship.

The Department also provides broad training for those who plan to teach in the public schools or who seek government positions. Provision is also made for those who intend to pursue graduate work in the area of either history or political science.

Majors are offered in (1) history, (2) political science.

Students majoring in history may participate in the departmental honors programs when they fulfill the following requirements: (1) demonstrate in their academic work the caliber of scholarship required to undertake extensive research projects; (2) apply and receive permission for such participation from the departmental staff and from the Dean of the College no later than the end of the first semester of their junior year; (3) obtain departmental approval of a research topic; (4) prepare an essay on the subject selected for research under the guidance of a member of the departmental staff; (5) complete the writing of the essay by the end of the first semester of the senior year; (6) defend the essay in a manner to be determined by the departmental staff and by the Dean of the College; (7) pursue a program of independent reading approved by the departmental staff; (8) demonstrate by means of a written and/or oral examination, knowledge and understanding of the material studied in the independent reading program.

Upon fulfilling these requirements satisfactorily the student will be recommended for graduation with departmental honors.

HISTORY

Major: 6 hours of American History, 6 hours of European History, History 44, twelve additional hours as approved by the adviser.

Minor: 6 hours of American History, 6 hours of European History, and 6 additional hours to be approved by the Chairman of the Department of History and Political Science.

11. Ancient History.

3:3:0. First semester. Offered 1961-1962.

The history of the Ancient Orient, Greece, and Rome. Stress will be placed on the cultural contributions of the Ancient World.

12. Medieval History.

3:3:0. Second semester. Offered 1961-1962.

Political, social, and cultural ideas of the Middle Ages will be treated through a study of typical institutions such as the manor, guilds, courts, the church, universities, and monarchical institutions.

21. The Renaissance and Reformation.

3:3:0. First semester. Offered 1960-1961.

A study of the political, economic, cultural and religious changes that occurred from the fourteenth to the seventeenth centuries.

22. Seventeenth and Eighteenth Century Europe.

3:3:0. Second semester. Offered 1960-1961.

The history of Europe from 1648 to the Congress of Vienna with special attention to the rise of Russia and Prussia, the Age of Louis XIV, the Old Regime, the French Revolution, and the Napoleonic Era.

23. Political and Social History of the United States and Pennsylvania.

3:3:0. Either semester.

A general survey of American history from the earliest settlements to the present time. Emphasis is placed upon the development of Pennsylvania as colony and Commonwealth.

24a-24b. Political and Social History of the United States and Pennsylvania.

3:3:0 per semester. Offered 1960-1961 only.

A study of American history from its beginnings in Europe to the present time. Special emphasis is placed upon the development of Pennsylvania as colony and Commonwealth.

25a-25b. History of the United States and Pennsylvania to 1865.

3:3:0 per semester. Offered 1960-1961.

An intensive study of American history from its beginnings in Europe to the end of the Civil War. The development of the United States is examined in its political, social, economic, demographic, and intellectual aspects. Special attention is given to the history of the colony and Commonwealth of Pennsylvania.

31. Europe from 1815 to 1914.

3:3:0. First semester.

Nineteenth century Europe from the Congress of Vienna to the outbreak of World War I. Emphasis is placed on diplomatic relations, revolutionary and liberal movements, the new colonialism, and the social changes of the latter part of the nineteenth century.

32. Europe from 1914 to the Present.

3:3:0. Second semester.

A study of World Wars I and II emphasizing the causes of the world wars, the efforts to maintain the peace, the rise of dictatorships, the tension in international relations, and the post-war periods.

35a-35b. History of the United States and Pennsylvania since 1865.

3:3:0 per semester. Offered 1961-1962.

An intensive study of American history since the Civil War in its political, social, economic, demographic, and intellectual aspects. Special emphasis is placed upon the development of the Commonwealth of Pennsylvania during this period.

44. Source Problems in American History.

3:3:0 per semester.

This course acquaints the student with the use of source materials and methods of historical research. Preparation for the departmental comprehensive examination will constitute part of the work of the course in the second semester.

47. History of the Far East.

3:3:0. First semester. Offered 1961-1962.

A study of the social, political, economic, and cultural institutions of the Far East prior to 1500 and the subsequent changes growing out of contact with the Western World. Emphasis is placed upon the trends since 1500; the emergence of Japan from isolation and her development as a world power; the reformation and revolution in China, and her struggle for unity; the rise of nationalism in Southeastern Asia; and developments since the end of World War II.

48. History of Latin America.

3:3:0. Second semester. Offered 1961-1962.

A general survey of the history of the Latin American republics from their colonial beginnings to the present time. Political, social, economic, demographic, and intellectual phases of their development are considered.

Methods of Teaching History. See Education 49, page 79. Integrated Studies 15 and 30. See page 66.

POLITICAL SCIENCE

Major: Political Science 10a-10b, 20, 21, 30, 31, 40, 41, and three additional hours.

Minor: Political Science 10a-10b and twelve additional hours approved by the Chairman of the Department of History and Political Science.

10a-10b. American Government and Politics.

3:3:0 per semester.

A study of the structure and functions of the various branches of the federal government; the Constitution; federalism and its problems; civil rights; political parties and pressure groups; elections; and the increasing powers of the federal government. Attention is given to problems facing our government and to current world affairs.

20. Comparative Government.

3:3:0. First semester. Offered 1961-1962.

A comparative study of the important governmental systems of the world, both democratic and authoritarian. Comparison and contrasts are made between unitary and federal forms. Special study is made of the governmental system in force in the Soviet Union.

Political Science 10a-10b is a prerequisite, or a corequisite.

21. Foreign Relations.

3:3:0. Second semester. Offered 1961-1962.

A study of the development, structure, and functions of the United States diplomatic and consular service. Consideration is given to recruitment, training and promotions in the Foreign Service. Emphasis is given to the problems faced by American diplomatic officials as revealed in contemporary international relations.

Political Science 10a-10b is a prerequisite, or a corequisite.

22. State and County Government.

3:3:0. First semester. Offered 1960-1961.

This course deals with the structure and functions of state and county government. Emphasis is placed on federal-state-local relationships, on administrative organization and services, on the courts, and on legislative representation

Political Science 10a-10b is a prerequisite, or a corequisite.

23. City Government.

3:3:0. First semester. Offered 1961-1962.

This course deals with the rise of urbanization and the accompanying growth of municipal functions. Attention is paid to metropolitan areas, to the legal process and status of cities, to municipal relations with state and national government, to urban politics, and to the various forms of city government.

Political Science 10a-10b is a prerequisite, or a corequisite.

30. Political Parties in the United States.

3:3:0. First semester. Offered 1960-1961.

A study of the history and origins of political parties, their organization, development, methods of operation, leaders, machines and bosses, campaigns and platforms.

Political Science 10a-10b is a prerequisite, or a corequisite.

31. American Constitutional Government.

3:3:0. Second semester. Offered 1960-1961.

A study of the growth and development of the Constitution through the medium of judicial construction. Recent decisions illustrating its application to new conditions of the present age, and proposals for court modification are given particular attention.

Political Science 10a-10b is a prerequisite, or a corequisite.

33. Public Opinion.

3:3:0. Second semester. Offered 1960-1961.

An analysis of the nature and sources of contemporary public opinion, with special attention to types of censorship and to modern propaganda devices. Political Science 10a-10b is a prerequisite, or a corequisite.

40. Political Theory.

3:3:0. First semester. Offered 1961-1962.

A survey of the different philosophies and theories of government, ancient and modern, with special reference to political philosophy since the sixteenth century.

Political Science 10a-10b is a prerequisite, or a corequisite.

41. International Politics.

3:3:0. Second semester. Offered 1961-1962.

A course in the origin, forms, dynamics and prospects of the international political pattern, with emphasis on current developments and changing concepts in world politics.

Political Science 10a-10b is a prerequisite, or a corequisite.

Geography 10a-10b. See page 86.

MATHEMATICS

Professor Bissinger; Assistant Professors Henning, Wagner

The aims of the Department of Mathematics are: (1) to make available mathematical theory and technique needed by students in applied sciences and industry; (2) to prepare students interested in mathematics for graduate schools as well as for secondary school teaching; (3) to provide the cultural advantages of a knowledge of mathematics.

Major: Mathematics 11, 22, 23, 26 and five additional one-semester courses. These five courses should be upperclass courses in mathematics, but two of them may be Mathematics 10 and Mathematics 12 for preparation for secondary school teaching. With permission of the Departmental Chairman two courses in a related field may be substituted for two courses in mathematics.

Prospective majors should elect a course in Physics (Physics 10 or 22), and take sufficient French or German to read mathematical works in these languages.

Minor: Mathematics 11, 22, 23 in sequence, and six additional hours.

Honors Program

Students may participate in the departmental honors program and be graduated with honors when they have fulfilled the following requirements:

- (1) demonstrate in their academic work the calibre of scholarship required to undertake extensive research projects;
- (2) apply for and receive permission for such participation from the Departmental Chairman and from the Dean of the College no later than the end of the first semester of the junior year;
 - (3) obtain departmental approval of a research project;
- (4) submit to collegiate level mathematics periodicals problems and solutions to problems to be published in competition with others in true scholarly spirit;
- (5) prepare a paper on the subject selected for research under the guidance of a member of the staff;
- (6) complete the paper by the end of the first semester of the senior year;
- (7) defend the paper in a manner to be determined by the departmental staff and the Dean of the College.

Students may adapt their project to their interests. For example, students primarily interested in applied mathematics may read and write in actuarial mathematics or mathematical statistics or mathematical physics. Individual work also may be arranged to relate mathematics to one of the natural or social sciences.

Examinations

Juniors and seniors take two examinations: (1) a three-hour written examination on basic courses; (2) a take-home examination on advanced calculus and matrix algebra.

In addition to the Graduate Record Examination and the comprehensive examination, seniors take the William Lowell Putnam Competitive Examination.

Plan of Study in Mathematical Statistics

Mathematics 11 and 37 form the basis of a concentration in mathematical statistics. The Honors program work may be written in this subject and related fields such as actuarial science.

A statistical and computing laboratory equipped with Brunsviga desk calculating machines is available to students doing computational work in connection with this program of study. Additional training with IBM electrical punched card equipment can be arranged with local industry.

Plan of Study in Mathematical Physics

Students interested in mathematical physics may elect to major in either the Department of Physics or the Department of Mathematics and

follow a plan of study in mathematical physics. Students interested in this plan will be referred to a suitable adviser. Ordinarily this program will include Mathematics 37 and 40.

Plan of Study in Engineering

The pre-engineering program is outlined on pages 49–51. It includes Mathematics 11, 12, 22, 23, and 30.

Mathematics

10. Introduction to Mathematical Analysis.

3:3:0 per semester.

A unified course involving training in concepts of arithmetic, algebra, trigonometry, and graphical analysis. The nature and significance of mathematics are stressed. Some statistics and calculus are introduced. Allendoerfer and Oakley, *Principles of Mathematics*.

11. Calculus and Analytic Geometry.

3:3:0 per semester.

The fundamental ideas of plane analytical geometry are interwoven with those of differential and integral calculus. A thorough background in trigonometry is required. Thomas, *Calculus and Analytic Geometry*, and Oakley, *The Calculus*.

12. Elementary Statistics.

3:2:2. Either semester.

Mathematical methods are used to conclude probable results from observed data. Wilks, *Elementary Statistical Analysis*. Laboratory fee, \$10.00.

15. Basic Concepts of Mathematical Thinking.

3:3:0. Either semester.

The three basic divisions of mathematics, algebra, geometry, and analysis, will be discussed with emphasis on the principles of mathematical thought rather than on the solution of problems. The significance of undefined notions in axiom systems, and the value of mathematical models will be illustrated. Specific topics may include cardinal numbers, arithmetic, irrational numbers, elementary group theory, elements of calculus, Euclid's parallel postulate and its effect on geometry. Whatever the topics, the fundamental structure of what is being studied and its philosophical analogues will be indicated. Some logic will be taught to explain deductive reasoning principles. Some statistics will be taught to defend inductive reasoning. As much as time permits examples will be drawn from all disciplines. Kemeny, Snell, and Thompson, Introduction to Finite Mathematics.

22. Calculus.

3:3:0. First semester.

Vector velocity and acceleration in plane curvilinear motion; three-dimensional analytic geometry; partial differentiation; multiple integration; infinite series. Thomas, *Calculus and Analytic Geometry*, and Kemeny, Snell, Mirkel, and Thompson, *Finite Mathematical Structure*.

23. Ordinary Differential Equations.

3:3:0. Second semester.

Ordinary types of differential equations are studied by Laplace transformation, series, graphical and numerical methods. Fourier series and boundary value problems are introduced. Sokolnikoff and Redheffer, *Mathematics of Physics and Modern Engineering*.

Prerequisite: Mathematics 22.

26. Classical Advanced Calculus.

3:3:0. One semester.

Rigorous existence proofs of functional concepts of continuity, differentiation, integration, transformation theory. Jacobians, line and surface integrals. Widder, Advanced Calculus.

Prerequisite: Mathematics 23.

30. Advanced Calculus for Engineers.

3:3:0 per semester.

Some vector technique is taught. Then the student solves differential equations and thereby studies Legendre and Bessel Functions, characteristic value problems, orthogonal functions, complex variables, and the calculus of residues. Sokolnikoff and Redheffer, *Mathematics of Physics and Modern Engineering*.

37. Mathematical Statistics.

3:2:2 per semester.

Calculus is used to develop basic statistical tools and notions. Generating functions, frequency distribution of one, two, or more variables, and various tests are considered. Fraser, *Statistics*, *An Introduction*. Laboratory fee \$10.00 per semester.

Prerequisite: Mathematics 11.

40. Methods of Applied Mathematics.

3:3:0 per semester. Offered 1960-1961.

Use is made of matrices and determinants, the concept of linear vector spaces and characteristic value. Formulation and solution of partial differential equations are accompanied by a treatment of integral equations, difference equations, and Green's function. Hildebrand, Methods of Applied Mathematics.

47. Matrix Algebra.

3:3:0. First semester.

Study is made of linear equations, linear dependence, vector spaces, operators, transformations, and matrices. Applications are made to geometry and physics. Wade, *Algebra of Vectors and Matrices*.

48. Modern Algebra.

3:3:0. Second semester.

Integral domains, groups, rings, fields and ideas are emphasized through an axiomatic approach with applications. Birkhoff and MacLane, Survey of Modern Algebra.

40.1. Mathematics Seminar.

1:1:0 or 2:2:0 per semester.

A study of modern higher mathematics. Special problems given on recent competitive examinations are presented and discussed. Part of the work may be done in a foreign language.

Open to departmental majors only.

MUSIC

Associate Professor Smith, Chairman; Professors Bender, Carmean; Associate Professors Campbell, Crawford, Fairlamb, Malsh, Stachow, Thurmond; Assistant Professors Getz, Lanese, Rovers; Instructors Kurtz, Pickwell, Reeve

The aims of the Department of Music are to train artists and teachers; to teach music historically and aesthetically as an element of liberal culture and to offer courses that give a thorough and practical understanding of theoretical subjects.

A maximum credit of eight semester hours in applied music may be counted toward a degree in all areas other than Music Education.

Major: See program on following page.

Attendance at faculty recitals and student campus recitals is compulsory.

All majors in Music Education are required to take private instruction on campus, if the Department offers instruction in the individual's principal performance medium.

Participation in music organizations may be required of all majors.

Minor: Twenty semester hours credit in Music courses including continuous private lessons on an instrument or in voice the entire four years. Fifteen of the twenty semester hours must be selected from the following courses: Sight Singing 10, 11, 20; Ear Training (Dictation) 12, 13, 22; Harmony 14, 15, 24, 39; additional Theory courses 21, 31, 40.1, 40.2; History of Music 30a, 30b; Music Literature 32; Conducting 35, 36, 45. The selection of courses must be approved by the Chairman of the Music Department.

Music Education

For Training Teachers of Public School Music (B.S. with a major in Music Education)

This course has been approved by the Pennsylvania State Council of Education and the National Association of Schools of Music for the preparation of teachers of public school music.

The Music Education curriculum requires two private lessons per week, one of which is included in the tuition charge. A charge is made for the second private lesson. For cost of private lessons see page 28.

DESCRIPTION OF MUSIC COURSES

I. Theory of Music Sight Singing

Music 10. Beginning Sight Singing.

2:3:0. First semester.

A beginning course in music reading. It is integrated with studies being simultaneously introduced and used in Dictation 12 and Harmony 14.

Music 11. Intermediate Sight Singing.

2:3:0. Second semester.

This course covers the study equivalent to any advanced reading material necessary for use in music education.

Music 20. Advanced Sight Singing.

2:2:0. First semester 1960-1961. 1:2:0. First semester 1961-1962.

A continuation with exercises and instrumental and vocal literature of increasing difficulty, both tonal and rhythmic. Study and application of tempo, dynamic and interpretative markings.

Speed and accuracy are expected. New literature is constantly used, resulting in an extensive survey of music materials.

Dictation (Ear Training)

Music 12. Beginning Ear Training.

2:2:0. First semester.

A study of tone and rhythm including the writing of intervals, melodies, and chord progressions as dictated from the piano; integrated with Sight Singing and Harmony.

Music 13. Intermediate Ear Training.

2:2:0. Second semester.

A continuation of the study of tone, rhythm, and intervals with emphasis upon the development of harmonic dictation.

Music 22. Advanced Ear Training.

2:2:0. First semester. 1960-1961. 1:2:0. First semester. 1961-1962.

A study of the more difficult tonal problems and complicated rhythms. Chromatic dictation correlated with chromatic harmony. The development of ability to recognize and write chord progressions, including modulation, and altered chords.

Harmony

Music 14. Beginning Harmony.

3:3:0. First semester.

A study of the rudiments of music including notation, scales, intervals, and triads; the connection of triads by harmonizing melodies and basses with fundamental triads; playing of simple cadences at the piano; analysis of phrases and periods.

Music 15. Intermediate Harmony.

3.3.0. Second semester

A study of inversions of triads, seventh and ninth chords, harmonizations of melodies and figured basses; analysis and composition of the smaller forms; modulation.

Music 24. Chromatic Harmony.

2:2:0. First semester.

The use of dominant and diminished sevenths as embellishments of and substitutes for diatonic harmony; harmonization of melodies and figured basses; analysis of two and three-part song forms; composition in two-part song form. Playing of more advanced cadences and modulations at the piano.

Music 39. Keyboard Harmony.

2:2:0. Second semester.

Harmonization at the piano of melodies, both with four part harmony and accompaniment; transposition; modulation; improvisation.

Additional Theory Courses

Music 21. Scoring for the Band.

2:2:0. Second semester.

Study of instrumentation, devices, techniques, and mechanics of scoring transcriptions, arrangements and solos for concert band; special work in scoring for marching band. Laboratory analysis and demonstration of various instrumental colors and combinations. Emphasis is placed on creative scoring.

Music 31. Form and Analysis.

2:2:0. First semester.

A study of the structure of music including hymns and simple folk songs, two and three part song forms, variations, contrapuntal forms, rondo and sonata forms. Compositions in these forms are studied and analyzed for harmonic content and structure.

Music 40.1. Counterpoint.

2:2:0. First or second semester.

Elementary work in strict counterpoint (five species in two part and three part counterpoint).

Music 40.2. Arranging and Scoring for the Modern Orchestra.

2:2:0. First or second semester.

Study of modern harmony, modulation, style analysis, special instrumental effects as applied to modern arranging. Laboratory analysis and demonstration of sectional and ensemble voicings.

Music 40.3. Composition, Schillinger System.

Private teaching.

A scientific system of music composition created by the late Joseph Schillinger, teacher of such accomplished professionals as George Gershwin, Ted Royal Dewar.

The major aims of the system are to: (1) generalize underlying principles regarding the behavior of tonal phenomena; (2) classify all the available resources of our tonal system; (3) teach a comprehensive application of scientific method to all components of the tonal art, to problems of melody, rhythm, harmony, counterpoint, orchestration and to composition itself.

The system is best studied in the light of a traditional background and admission to course or private instruction is by special permission only.

II. Methods and Materials

Music Ed. 23A. Methods and Materials, Vocal: First, Second and Third Grades.

2:2:0. Second semester.

A comprehensive study of the use of the child's singing voice in the primary grades, including the treatment of uncertain singers, acquaintance with the best collections of rote songs, and practice in choosing, memorizing, singing, and presenting a large number of these songs; methods of presenting rhythm through singing games and simple interpretative movements; beginnings of directed music appreciation; foundation studies for later technical developments. Comparative study of recognized Public School Music Series of books.

Music Ed. 23B. Methods and Materials, Instrumental: First, Second And Third Grades.

1:1:0. Second semester.

Introduction to instrumental methods and materials; teaching of melody instruments; rudiments of instrumental pedagogy.

Music Ed. 33A. Methods and Materials, Vocal: Fourth, Fifth and Sixth Grades.

2:2:0. First semester.

A study of the child's singing voice in the intermediate grades; attention is given to the formal or technical work of these grades with an evaluation of appropriate texts and recent approaches. Preparation of lesson plans, and observation are required. Music appreciation is continued.

Music Ed. 33B. Methods and Materials, Instrumental: Fourth, Fifth and Sixth Grades.

1:1:0. First semester.

A study of methods and materials used in teaching band and orchestral instruments to children in these grades, with emphasis on a sound rhythmic approach. Both individual and class techniques are studied.

Music Ed. 34A. Methods and Materials, Vocal: Junior and Senior High School.

2:2:0. Second semester.

A study of adolescent tendencies of high school students. This course proposes to acquaint the student with organization and class content of materials to be used. Recent trends in teaching are studied.

Music Ed. 34B. Methods and Materials, Instrumental: Junior and Senior High School.

1:1:0. Second semester.

Intermediate and advanced instrumental teaching techniques; methods of organizing and directing school orchestras and bands.

Music Ed. 43. Advanced Problems.

2:2:0. Second semester.

A study of the general and specific problems which confront the director of school orchestras, bands, and instrumental classes. Problems of general interest include: organization and management, stimulating and maintaining interest; selecting beginners; scheduling rehearsals and class lessons; financing and purchasing instruments, uniforms, and other equipment; marching band formations and drills; evaluating music materials; organizing festivals, contests, and public performances.

Music Ed. 44. Methods in Piano Pedagogy.

2:2:0. First semester.

A study of methods of teaching piano to children and adults. The course includes the song approach method, presentation of the fundamental principles of rhythm, sight reading, tone quality, form, technique, pedaling, transposition and the harmonization of simple melodies. Materials are examined and discussed.

Music Ed. 49. Seminar in Advanced Instrumental Problems.

3:3:0. Offered in summer session.

Use of the tape recorder, preparation of an extensive list of the most used musical terms, methods of raising money; analysis of the attitudes of teenagers toward studying music; establishment of an inventory for band uniforms; specifications for music rooms in new buildings; consultations with visiting music directors and school administrators; observation of nearby summer instrumental programs.

III. Student Teaching

Music Ed. 40a-40b. Student Teaching.

6 hours credit per semester.

Student teaching in Music Education, done in the Annville-Cleona Joint Schools, the Derry Township Consolidated Schools, and the Milton Hershey School, includes vocal and instrumental work from elementary to senior high school.

A fee of \$20.00 per semester is charged.

Music Ed. 49. Advanced Instrumental Teaching.

3:3:0. Offered in summer session.

Actual experience with practical problems involved in the following activities: teaching advanced instrumental classes, conducting sectional rehearsals and full band rehearsals, organizing and developing an exploratory instrument class, training a young marching band, scheduling, preparing and presenting a public concert.

IV. Instrumental Courses

Class Instruction in Band and Orchestral Instruments

Practical courses in which students, in addition to being taught the fundamental principles underlying the playing of all band and orchestral instruments, learn to play on instruments of each group, viz., string, woodwind, brass, and percussion. Problems of class procedure in public schools are discussed; transposition of all instruments is taught and an extensive bibliography is prepared. Ensemble playing is an integral part of these courses.

Brass Instruments (Cornet, Trumpet, French Horn, Trombone, Baritone, Tuba)

Music 16. Beginning Brass.

1:2:0. First semester.

A study of any two of the above instruments.

Music 17. Intermediate Brass.

1:2:0. Second semester.

A study of the remainder of the above instruments.

Percussion Instruments (Snare Drum, Tympany, Bass Drum, etc.)

Music 18. Beginning Percussion.

1/2:1:0. First semester.

A study of snare drum only.

Music 48. Intermediate Percussion.

1/2:1:0. Second semester.

A study of the remainder of the above listed instruments.

Woodwind Instruments (Clarinet, Flute, Piccolo, Oboe, Saxophone, Bassoon)

Music 25. Beginning Woodwind.

1:2:0. First semester.

The study of the clarinet.

Music 26. Intermediate Woodwind.

1:2:0. Second semester.

A study of the remainder of the above listed instruments.

String Instruments (Violin, Viola, 'Cello, String Bass)

Music 37. Beginning String.

1:2:0. First semester.

A study of all of the above listed instruments.

Music 38. Intermediate String.

1:2:0. Second semester.

A continuation of the study of all of the above listed instruments.

Instrumental Seminar.

½:1:0 or 1:2:0. First or second semester.

Application of specific techniques to problems of class instruction.

Music 41.1-41.2 Brass Music 41.3-41.4 Percussion Music 41.5-41.6 String

Music 41.7-41.8 Woodwind

P

Prerequisite: Brass 17.
Prerequisite: Percussion 48.

Prerequisite: String 38.

Prerequisite: Woodwind 26.

V. Music Organizations

Opportunities for individual performance in a group experience are provided by music organizations. Membership in the organizations is open on an audition basis to all students.

Music 101a-101b. College Band.*

1:2:0, First semester. 11/2:3:0, Second semester.

Lebanon Valley College maintains a uniformed band which contributes to college life by playing at football games, presenting concerts during the year, and providing the musical accompaniment for the annual May Day pageant. Off campus activities include appearances in neighboring communities. Membership in the band is determined by an applicant's ability and by the needs of the band with respect to maintaining a well-balanced instrumentation.

Music 102a-102b. Girls' Band.*

½:1:0 per semester.

Membership in this band is determined by the applicant's ability, and by the needs of the band with respect to maintaining a well-balanced instrumentation. The group presents a spring concert.

Music 103a-103b. Symphony Orchestra.*

11/2:3:0, First semester. 1:2:0, Second semester.

The Symphony Orchestra is an organization of symphonic proportions maintaining a high standard of performance. A professional interpretation of a wide range of standard orchestral literature is insisted upon.

Music 104a-104b. Concert Choir.*

1:2:0 per semester.

The Concert Choir is a mixed chorus of selected voices. The personnel of the organization is limited to forty members. Choral literature of the highest type is studied intensively. In addition to on-campus programs and appearances in neighboring communities, the Concert Choir makes an annual tour.

Music 105a-105b. College Chorus.*

1/2:1:0 per semester.

The Chorus provides an opportunity to study and participate in the presentation of choral literature of the Masters. It is open to all students who are interested in this type of musical performance and who have had some experience in singing.

Music 106a-106b. Beginning Ensemble.*

1/2:1:0 per semester.

A training band and orchestra wherein students play secondary instruments and become acquainted with elementary band and orchestral literature. Opportunity is given for advanced conducting students to gain experience in conducting.

^{*}Course may be repeated with credit.

Instrumental Small Ensembles.*

1/2:1:0 per semester.

Open to the advanced player on an audition basis.

Music 107a-107b String Quartet.

Music 108a-108b String Trio.

Music 109a-109b Clarinet Choir.

Music 110a-110b Woodwind Quintet.

Music 111a-111b Brass Ensemble.

Music 112a-112b Percussion Ensemble.

VI. The History and Appreciation of Music

19. History and Appreciation of Music.

3:3:0. Either semester.

A course for the non-music major designed to increase the individual's musical perceptiveness through more intelligent listening. Musical structure and design are emphasized along with their chronological development in the history of music, resulting in a simultaneous study of the basic elements of music coupled with a general survey of its history. Integration with the other fine arts is stressed.

Music 30a-30b. History of Music.

3:3:0 per semester.

The first developments of music are treated briefly; and special emphasis is placed on the work of the contrapuntal schools and the development of the harmonic idea in composition including the rise of opera, oratorio, and instrumental music in the sonata form. The first semester covers the development of music through the Baroque Period. The second semester includes the study of the musical styles, forms, and composers of the Classical, Romantic, Impressionistic, and Contemporary periods.

Music 32. Music Literature.

2:2:0. Second semester.

A study of music literature for elementary, secondary, and adult levels. Interpretation of, response to, and appreciation of music. Emphasis is placed on instrumental literature.

VII. Conducting

Music 35. Elementary Conducting.

2:2:0. First semester.

Principles of conducting and a study of the technique of the baton are presented. Each student conducts vocal and instrumental ensembles made up of the class personnel.

Music 36. Intermediate Conducting.

2:2:0. Second semester.

A detailed and comprehensive study of the factors involved in the interpretation of choral and instrumental music.

^{*}Course may be repeated with credit.

Music 45. Advanced Conducting.

2:2:0. First semester.

In addition to conducting from full score, each student conducts in rehearsal the various concert organizations.

VIII. Miscellaneous Courses

Music 27. Beginning Eurhythmics, Movement to Music.

1:1:0. Second semester.

This course offers a three-fold development: coordination through mental control; physical poise through movements in response to rhythm, and a musical sense through analysis of the rhythmic element in music.

Music 42. Advanced Eurhythmics, Movement to Music.

1:1:0. First semester.

A general survey of elementary and intermediate floor work. The principles underlying the presentation of this to children are interpreted and discussed. Applied improvisation is an integral part of the course.

Music 28. Care and Repair of Instruments.

1:1:0. First or second semester.

An analytical laboratory technique applied to methods of construction of band and orchestral instruments. With this information as a background, preventive measures are established to avoid undue wear and deterioration of the instruments. Through actual experience the student acquires proficiency in the operations necessary in replacements and repair.

Music 46. Physical Science. (Science of Sound)

3:3:0. First semester.

Cultivation of a scientific approach to sound and tone, with emphasis on their application to music and musical instruments.

Laboratory fee. \$2.00.

IX. Individual Instruction

Music 131-132. Voice, Piano, Organ, Orchestral and Band Instruments.

1/2:1/2:0 per semester.

The work in the foregoing fields is organized from the standpoint of the development and musicianship in the individual student. The work continues through eight semesters and assures a well-rounded and many-sided acquaintance with various musical techniques.

Organ: Mr. Campbell, Mr. Getz

Piano: Mrs. Bender, Mr. Fairlamb, Miss Pickwell, Miss Reeve

Violin: Mr. Malsh

Voice: Mr. Crawford, Mr. Rovers

Brass: Mr. Thurmond

Viola, 'Cello, String Bass: Mr. Lanese

Woodwind: Mr. Stachow

X. Preparatory Courses

The Department of Music sponsors preparatory courses adapted to children of elementary or high school age. Both adults and children are admitted at any stage of advancement.

Instruction, either private or in class, is offered in piano, voice, and all instruments of the band and orchestra. A desirable number for class instruction is from four to six students.

The Student Recitals

The student recitals are of inestimable value to all students in acquainting them with a wide range of the best musical literature, in developing musical taste and discrimination, in affording experience in appearing before an audience, and in gaining self-reliance as well as nerve control and stage demeanor.

Students at all levels of performance appear in these student recitals.

PHILOSOPHY AND RELIGION

PROFESSOR EHRHART; ASSISTANT PROFESSOR BEMESDERFER

The aim of this department is to provide opportunity for the study of our religious and philosophical heritage.

Students are encouraged to develop interest in the most universal questions about man and his world, and to philosophize for themselves.

Religiously the department seeks to orient the student to a Christian world view, providing an understanding of the Scriptures and the heritage of the Christian church as a means to this end, as well as to enhancing of Christian living as a dynamic experience.

Professionally, basic courses are offered to students preparing for the Christian ministry, the world mission field, the teaching of religion, and other church vocations.

Students concentrating in philosophy may participate in the departmental honors program by fulfilling the following requirements: (1) achieve high academic standing in departmental courses; (2) submit a paper in connection with a course beyond Philosophy 10 and 11; (3) apply and receive approval for participation in the honors program from the departmental chairman and the Dean of the College by the end of the first semester of the junior year; (4) prepare an essay of 10,000 words or more under the direction of the departmental chairman, to be submitted by April 1 of the senior year; (5) defend the essay before a faculty committee selected by the Departmental Chairman and the Dean of the College.

On the basis of his performance in the essay, departmental comprehensive examination, and oral examination, the Departmental Chairman and the Dean of the College will determine whether or not the candidate is to receive departmental honors.

Major: A total of thirty semester hours is required for a major, with the student being able to concentrate in either the area of Philosophy or the area of Religion. A minimum of eighteen semester hours is required in one area and twelve in the other. Two semester hours credit in Integrated Studies 20 (The Humanities) is transferable to Philosophy. A departmental comprehensive examination is also required.

Minor in Philosophy: Philosophy 10, 11, 20, 35a-35b, and three additional semester hours.

Minor in Religion: Religion 10a-10b, 20, 30, 32, and six additional semester hours.

PHILOSOPHY

10. Introduction to Philosophy.

3:3:0. First semester.

An introduction to the basic method and some of the main problems of philosophy which gives students both an inkling of the work of the greatest thinkers and an opportunity to do some philosophizing of their own.

11. Introduction to Logic.

3:3:0. Second semester.

Introduction to the rules of clear and effective thinking, as well as those of exact communication and the logical use of language. Attention is given both to the classical deductive logic, and to inductive logic and scientific method. Considerable use is made of exercises and problems.

20. Greek Philosophy.

3:3:0. First semester. Offered 1960-1961.

This course traces the rise of Western philosophy from its non-philosophical origin in Greek religion, through the teachings of Plato and Aristotle, and the Hellenistic philosophies of Stoicism and Epicureanism, concluding with the effects of Greek philosophy on Augustine and Thomas Aquinas.

30. Ethics.

3:3:0. First semester. Offered 1961-1962.

An inquiry into the major theories on the nature of the good and the good life; examination of the problems of moral relativism and moral freedom; and discussion of the practical problems of morality as they are encountered in personal, political, and economic life.

31. Philosophy of Religion.

3:3:0. Second semester.

A study of the issues raised for philosophy by contemporary religious and theological thought. A critical examination of such problems as faith and reason; the meanings of revelation, symbolism, and language; the arguments for the existence of God; faith and history; religion and culture.

35a. Modern Philosophy.

3:3:0. First semester. Offered 1961-1962.

In this course, which is the logical continuation of Philosophy 20a-20b, the changes brought about in philosophical thinking by the cultural and scientific renaissance are examined and a study made of philosophical developments from Bacon and Descartes through Kant.

35b. Recent and Contemporary Philosophy.

3:3:0. Second semester. Offered 1961-1962.

History of Western philosophy brought down to the present, starting with the philosophy of Fichte and concluding with a study of the living philosophers as well as the outstanding contemporary schools of philosophy.

41. Aesthetics.

2:2:0. First semester. Offered 1960-1961.

A survey of the philosophy of the beautiful, the correlation of the same with the development of the fine arts, and a consideration of fundamental principles of criticism.

42. Seminar.

2:2:0. Second semester.

This course aims at filling in some of the gaps in the student's knowledge of philosophy, integrating the study he has already pursued, and in part preparing him for the comprehensive examination. Course content and method are adapted to individual student's needs, or the needs of the group.

Limited to seniors concentrating in philosophy.

RELIGION

10a-10b. Introduction to English Bible.

3:3:0 per semester.

A historical survey of the literature of the Old and New Testaments.

20. The Prophets.

2:2:0. First semester. Offered 1961-1962.

A study of the lives of the major and minor prophets, and an analysis of their contributions to the ethical and religious thought of the Old Testament.

21. The History and Religion of the Hebrews.

2:2:0. First semester. Offered 1960-1961.

The religious growth of the Hebrews during the period of the Old Testament.

30. Life and Epistles of Paul.

 $2{:}2{:}0.\ Second\ semester.\ Offered\ 1961{-}1962.$

The life and epistles of Paul; the practices, problems, and beliefs of the early church.

31. The Christian Church.

 $\hbox{2:2:0. First semester. Offered $1961-1962}.$

A study of the growth of Christianity beyond the early church, with special emphasis on the origin and growth of denominations.

32. The Teachings of Jesus.

2:2:0. First semester.

An intensive study of the religious concepts of Jesus as set forth in the Gospels.

40. Principles of Religious Education.

2:2:0. First semester. Offered 1960-1961.

Investigation of some of the principles and problems of religious education.

41. The Church School.

2:2:0. Second semester.

A study of the principles, problems, and methods in the organization and administration of the Sunday School, Church Vacation School, and Week Day School of Religion.

42. The History of Religion.

2:2:0. Second semester. Offered 1960-1961.

The rise and development of religion. A study of comparative religions.

43. Biblical Archaeology.

2:2:0. Second semester. Offered 1961-1962.

A review of the findings of the explorer, excavator, and scholar and their evaluation in relation to Bible facts and teachings.

Philosophy of Religion. See Philosophy 31.

PHYSICS

Associate Professor Rhodes; Professor Grimm; Assistant Professor O'Donnell

The Physics Department aims to develop in the student an increased understanding of the basic laws of nature as they relate to our physical environment, and to indicate the possible extent, as well as the limitations, of our knowledge of the physical world.

The introductory course, Physics 10, provides the basic training in Physics required of pre-medical students and for students who wish to take only one course in Physics. The sequence of courses beginning with Physics 22 provides suitable training for students preparing for graduate school, for secondary school teaching, and for research and development work in governmental and industrial laboratories. Laboratory work is provided in all courses except Physics 40 and 47 to emphasize basic principles in each course, to acquaint the student with the experimental techniques and the measuring instruments appropriate to the field of study, and to give experience in the interpretation and communication of the experimental data.

Mathematics is an essential tool in the study of Physics. The introductory course requires high school algebra and trigonometry, but students who plan to take further work in Physics should take Mathematics 11, 22, and 23 as soon as possible.

Major: Physics 22, 25, 32, 40, and eight additional hours.

Minor: Physics 22, 25, and six additional hours.

10. General College Physics.

4:3:3 per semester.

An introduction to the fundamental concepts and laws of the various branches of physics, including mechanics, heat, sound, electricity, magnetism, optics, and atomic and nuclear structure.

Laboratory fee, \$10.00 per semester.

22. Principles of Physics.

4:3:3 per semester.

A comprehensive introductory course designed for physics majors, preengineering students, and other students who desire a more rigorous mathematical approach to college physics than is given in Physics 10. Calculus is used throughout. The first semester is devoted to mechanics, heat, and sound; the second semester, to electricity, magnetism, and optics.

Laboratory fee, \$10.00 per semester.

Prerequisite or corequisite: Mathematics 11.

25. Atomic Physics.

4:3:3. First semester.

An investigation of the foundations of atomic physics, including a study of the electron and other atomic particles, the quantum theory of radiation, optical and X-ray spectra, and atomic and molecular structure.

Laboratory fee, \$10.00.

26. Nuclear Physics.

4:3:3. Second semester.

An investigation of the properties of the atomic nucleus, radioactivity, transmutation, nuclear reactions, models of nuclear structure, cosmic rays, and strange particles. Also, a study of high-energy particle accelerators and nuclear reactors.

Laboratory fee, \$10.00.

32. Electricity and Magnetism.

4:3:3. Second semester. To be offered 1961-1962.

The basic definition of electric and magnetic quantities and their measurement, a study of the electric and magnetic properties of matter, the laws of electric and magnetic fields, and the development of Maxwell's equations.

Laboratory fee, \$10.00.

36. Electric Circuits.

4:3:3. First semester. To be offered 1961–1962.

A study of D.C. and A.C. circuit theory, the description of vacuum tubes, transistors, and other non-linear circuit elements, and the application of these devices in electronic circuits.

Laboratory fee, \$10.00.

40. Analytical Mechanics.

3:3:0 per semester.

A rigorous study of the fundamental principles of mechanics, including Newton's laws of motion, simple and damped harmonic motion, forced vibrations, motion under a central force, gravitation, motion of a rigid body, wave motion, and the derivation and application of Lagrange's equations.

43. Optics.

4:3:3. First semester.

A study of the fundamental nature of light, including geometrical and physical optics. The transmission of light through various media, interference, diffraction, and polarization.

Laboratory fee \$10.00.

47. Thermodynamics and Statistical Mechanics.

3:3:0. Second semester.

A study of the principles of thermodynamics, the kinetic theory of gases, and an introduction to statistical mechanics.

48. Seminar and Special Problems in Physics.

2:1:4 per semester.

An intensive library and laboratory study of topics of special interest to advanced students in the physics department. The class periods will be devoted to discussions of the background for the laboratory work, and to the presentation of reports on the results of the studies.

Laboratory fee, \$10.00 per semester.

PSYCHOLOGY

ASSOCIATE PROFESSOR LOVE AND STAFF

In keeping with the objectives of the liberal arts, church-related college, the courses offered in the Department of Psychology are designed: (1) to develop in the student an understanding and appreciation of the biological and environmental bases of human behavior and of the role of that behavior in adjustment; (2) to foster healthy adjustment through the objective application of psychological principles to problems related to personal, vocational, and moral growth; and (3) to furnish a theoretical, scientific, and practical acquaintance with principles, methods, and techniques not only basic to graduate study and employment in psychology, but beneficial in the many occupations in which psychology is applied.

Major: Psychology 20, 35a, 35b, 43, 44, 45a, 45b, and nine hours of electives. Majors are also required to take Mathematics 12 (Elementary Statistics), or its equivalent, and it is recommended that Biology 22 and 32 be taken.

Minor: Psychology 20, 35a, 43, 44, and six hours of electives.

10. Developmental Reading.

0:3:0. Either semester.

A course designed to increase the efficiency of both poor and superior readers. Reading difficulties are analyzed. Improvement of reading skills and study performance are accomplished with the aid of mechanical devices. Discussions and lectures deal principally with recognized problems in reading and with appropriate measures for correction.

20. General Psychology.

3:3:0. Either semester.

An introductory course designed to acquaint the student with psychological principles and their application in daily life, and to survey the various areas of psychology.

23. Educational Psychology.

3:3:0. Either semester.

A study of the nature of the learner and of the learning process. Prerequisite: Psychology 20.

32. Psychology of Abnormal Behavior.

3:3:0 First semester

An introduction from the biosocial viewpoint to the behavior disorders, with emphasis on the dynamics of behavior as related to pathology. The diagnostic categories of the psychoneuroses and psychoses are discussed in detail.

Prerequisite: Psychology 20.

35a-35b. General Experimental Psychology.

3:2:3 per semester.

Introduction to research methods for study of human behavior. Survey of experimental results in learning, perception, memory, reasoning, fatigue, reaction time, thinking, emotion, motivation, etc. Laboratory exercises are designed to provide first hand experience in the study of some of these.

Laboratory fee \$5.00 per semester.

Prerequisites: Psychology 20; Mathematics 12 or permission of the instructor.

36. Developmental Psychology.

3:3:0. First semester.

A comprehensive treatment of psychological development from infancy to adulthood.

Prerequisite: Psychology 20.

41. Introduction to Clinical Psychology.

3:3:0. Second semester.

An introduction to current methods of diagnosis and psychotherapy of behavior problems, and to the applications of psychology in clinical situations.

Prerequisites: Psychology 20 and 32 and permission of the Chairman of the Department.

42. Psychology of Individual Differences.

3:3:0. Second semester.

A survey of special and general human abilities, and of techniques of measuring them. The student will become acquainted with and gain elementary practice with a wide variety of psychological tests.

Laboratory fee \$2.00.

Prerequisites: Psychology 20; Mathematics 12 or permission of the instructor.

43. Personality.

3:2:2. First semester.

A study of the major contemporary theories of personality with the objectives both to understand personality and to integrate knowledge acquired in previous psychology courses.

Prerequisites: Psychology 20, 32.

44. Physiological Psychology.

3:3:0. Second semester.

A study of the structure and functions of the body, especially of the nervous system, as these are related to behavoir and experience. Emphasis is placed on physiological events underlying perception, learning, etc.

Laboratory fee \$1.00.

Prerequisites: Psychology 20, 35a, and senior standing.

45a-45b. Seminar.

Staff

Maximum credit for two semesters is 3 hours, 1 or 2 hours per semester.

Designed to promote independent study and research. Adapted to needs of students enrolled. Fieldwork and direct experience with approval of Department Chairman. Intended to develop a more comprehensive view of the field of psychology.

Educational Measurements. See Education 30, page 76.

Principles of Guidance Organizations and Administrations. See Education 41, page 79.

SOCIAL STUDIES

See Integrated Studies, page 66.

SOCIOLOGY

ASSISTANT PROFESSOR BRUMBAUGH

The courses in the Department of Sociology have been designed: (1) to develop the student's understanding of the social structure and the social relationships in and through which man functions; (2) to provide preliminary training for those who are planning to enter the field of social, religious, and community work; and (3) to furnish basic background knowledge for the pursuance of graduate work in Sociology.

The departmental honors program is designed to provide stimulation for capable students to undertake and carry through academic work of high quality. Honors work is planned as an integral part of the student's major program rather than viewed as work superimposed upon it, and is set in the framework of a major area of concentration.

(1) The student should apply for admission to the honors program at the beginning of the second semester of the sophomore year. This would enable him to undertake preliminary work for one year before being admitted to full status in the honors program at the beginning of the second semester of the junior year.

- (2) To enter the honors program a student must have a high general standing in the college and the approval of the Departmental Chairman and the Dean of the College no later than the end of the first semester of the junior year. An average grade of B in all courses in the student's major area of concentration is required as is an average of B while he is pursuing his work as a candidate for departmental honors. The student must, in addition, fulfill any other specific requirements of the department.
- (3) The honors student will prepare an essay of ten thousand words or more under the direction of the Departmental Chairman to be submitted by the end of the first semester of the student's senior year. It shall be defended in a manner approved by the Departmental Chairman and the Dean of the College.
- (4) The honors work of each student shall be tested by a special oral examination. On the basis of his performance in the essay, departmental comprehensive, Graduate Record Examination, and oral examination, the Departmental Chairman and the Dean of the College will determine whether or not the candidate is to receive departmental honors.

Major: Sociology 20, 21, 22, 30, 31, 40, 43, 45, Integrated Studies 30. Sociology majors are required to take Mathematics 12—Elementary Statistics.

Minor: Sociology 20, 21, 22, six additional hours, Integrated Studies 30.

20. Introductory Sociology.

3:3:0. First semester.

The study of social life and human values expressed in group activities and their interrelationships. This course acquaints the student with the primary concepts in the field of Sociology. Topics include: contributions from cultural anthropology and social psychology; human groups; social institutions; social change.

21. Modern Social Problems.

3:3:0. Second semester.

This course deals with the preventive and remedial aspects of current social problems such as poverty, physical and mental health, juvenile delinquency, adolescence, race, old age, national security, and civil liberties.

22. Marriage and the Family.

2:2:0. Second semester.

Anthropological and historical materials are drawn upon for a comparative analysis of family types and theories of family relationships. Discussions include the topics: courtship and marriage, parenthood, formation of personality within the family, and family disorganization.

30. Criminology.

3:3:0. First semester. Offered 1960-1961.

An analysis is made of the interplay of forces which result in criminal behavoir. Case histories are used to illustrate the individual and social forces in

criminal careers. Emphasis is given to organized crime as a social phenomenon in American life, the administration of American criminal justice, developments in penology and treatment of offenders, and programs of crime prevention.

31. Introduction to Social Work.

3:3:0 per semester. Offered 1960-1961.

A pre-professional course dealing with the nature and requirements of the fields of social work. Observation of the work of private and public agencies in this field is required. Fee, \$1.00 per semester.

Sociology 20 and 21 are prerequisites.

33. Social Institutions.

3:3:0. First semester. Offered 1961-1962.

An analysis of the institutional structure and functions of the economic and political order, the family, religion, education, and recreation in contemporary America. Attention is directed to the impact of institutional expectations upon the individual.

Sociology 20 and 21 are prerequisites.

40. Population.

2:2:0. First semester. Offered 1961-1962.

A study of the size, growth, composition, and distribution of the peoples of the earth. Emphasis is placed on the social significance of the nature and change of population.

Sociology 20 and 21 are prerequisites.

43. Development of Sociological Theory.

3:3:0. Second semester. Offered 1961-1962.

A critical appraisal of the works of some American and European sociologists. Particular emphasis is given to the similarities and differences in basic assumptions and conclusions of leading writers since 1900.

45. Senior Seminar.

2:2:0 per semester.

Emphasis upon coordination of previous course work and understanding of the basic contributions of Sociology in relation to other behavioral sciences. Preparation for the departmental comprehensive examination. Significant reading, critical discussion, and written analysis, with these aims in view. Adapted to the individual needs of students.

To supplement course work, direct experience in a social work practicum for students who have an expressed interest in the social work field. Cooperating social agencies include: the Lebanon County Board of Assistance; Family and Children's Service, Lebanon; and the Veterans Administration Hospital, R. D. 1, Lebanon. Participation by permission of the appropriate Departmental Chairman.

Senior Sociology majors or with permission of the Departmental Chairman.

EARL F. WELLER, Instructor in Spanish

B.S., Elizabethtown College, 1933; A.M., University of Mexico, 1942.

COOPERATING TRAINING TEACHERS:

The student teaching program is organized to give the beginning teacher as wide and varied experiences as possible.

Extreme care is used in the assignment of the high school teacher with the student teacher. The selection is made in a cooperative manner between the administration of the local school and the college supervisor of practice teaching.

Names of cooperating teachers and subjects taught are available in the Office of the Department of Education.

Music Education

Student teaching in Music Education is done in the Derry Township Consolidated Schools, the Annville-Cleona Joint Public Schools and the Milton Hershey School. The following cooperate in the program:

- L. EUGENE JACQUES, M.A., Ph.D., Superintendent of Derry Township Consolidated Schools, Hershey, Pa.
- PAUL G. FISHER, B.S., M.A., M.M., Chairman, Music Department, Hershey, Penna.
- MISS JANE EMEL, B.Mus., M.Mus.Ed., Junior High School Music Instructor, Hershey, Pa.
- ELWYN F. SPANGLER, B.S., M.A., Elementary Music Instructor, Hershey, Pa.
- MERLE L. KEIM, B.S., M.A., Supervising Principal, Annville-Cleona Joint Schools
- WILLIAM K. LEMON, III, B.S., Superintendent of Instrumental Music, Annville, Pa.

- JOHN O. HERSHEY, B.A., M.A., Ed.D., Superintendent of Milton Hershey School, Hershey, Pa.
- WILLIAM A. HOOVER, B.S., M.S., Director of Elementary Education, Hershey, Pa.
- W. PURNELL PAYNE, B.S., M.A., Music Supervisor, Hershey, Pa.
- MISS LYNETTE E. WALLER, B.S., Elementary Music Instructor, Hershey, Pa.

DEPARTMENTAL ASSISTANTS-1959-60:

Chemistry James W. Carpenter, 1960
Economics and Business Administration BRUCE W. BUCKWALTER, 1961
English Amelia L. Hartman, 1961
History and Political Science HAROLD O. MILLER, 1960
Mathematics Fay B. Burras, 1960
Music (first semester) William Nixon, 1961
Music (second semester) Kenneth R. Nelson, 1960
Philosophy and Religion
Physical Education for Men LARRY L. GODSHALL, 1962
Physical Education for Women Brenda C. Funk, 1960
Physics John B. Bowman, 1961
Psychology Joan B. DeConna, 1961
Sociology Kay L. Steiner, 1962

TEACHING INTERNESHIPS-1959-60:

Psychology Joan L. Turner, 1960

FACULTY AND ADMINISTRATIVE COMMITTEES—1959-60

Elected:

Administrative Advisory—Dr. Ehrhart, Dr. Love, Dr. Rhodes Committee on Committees—Dr. Faber, Mr. Fehr, Mr. Shay

Appointed:

- Academic Progress—Dean Kreitzer, Mr. Fairlamb, Miss Faust, Mr. Marquette, Mrs. Starr, Head of Department of student concerned
- Admissions-Mr. Carmean, Mr. Keller, Dr. Love, Mr. Smith, Mrs. Starr
- Athletics—Dr. Ebersole, Mr. McCracken, Dr. Neidig, Dr. Richie, Mr. Schaak, Miss Bowman, and advisory members Mr. Marquette and Mr. Poad
- Calendar-Dr. Rhodes, Mrs. Bowman, Mr. Shay, Mrs. Starr, Dr. Thurmond
- Dramatics—Dr. McKlveen, Mr. Keller, Mr. Kline, Mr. Matlack, Miss Pickwell, Dr. Struble, President of Wig and Buckle
- Educational Policy—Dean Kreitzer, Departmental Chairmen, Librarian, Registrar
- Sub-Committee on Auxiliary Schools-Mr. Shay, Dean Kreitzer, Mrs. Starr

- Educational Television-Mr. Fairlamb, Miss Faust, Mr. Kline, Rev. Souders
- Freshman Week—Miss Faust, Mr. Marquette (Co-Chairmen), Dr. Bemesderfer, Miss Fencil. Dr. Love, Mrs. Starr
- Honorary Degrees—Dr. Richie, Dr. Bemesderfer, Dr. Grimm, Dr. Stonecipher Library—Dr. Fields, Dr. Rhodes, Mr. Stachow
- May Day—Miss Bowman, Miss Butler, Mr. Getz, Mr. Schaak, Dr. Thurmond, Mr. Tom, Student Assistant
- Parents' Day—Miss Faust, Mr. Marquette (co-chairmen), Mr. Bollinger, Mr. Carmean, Dr. Geffen, Mrs. Kreider, Rev. Souders
- Publications—Dr. Struble, Mr. Carmean, Miss Fencil, Mr. Rovers, Rev. Souders (Executive Secretary), Editor of La Vie
- Public Events—Rev. Souders, Dr. Colgan, Mr. Fehr, Mr. Hollinger, Mr. Schaak, Dr. Thurmond, Presidents of Senior and Junior Classes
- Religious Activities—Dr. Bemesderfer, Dr. Ebersole, Dr. Light, Dr. Richie, Dr. Stonecipher, Rev. Hostetter, President of Student Christian Association
- Scholarship—Mr. Carmean, Dr. Faber, Miss Fencil, Mr. Marquette, Mr. Schaak Social—Miss Butler, Mrs. Bowman, Mr. Fritz, Dr. Lockwood
- Student Conduct—Dr. Stonecipher, Miss Brumbaugh, Miss Faust, Mr. Marquette, Mr. Smith
- Student Personnel Services—Miss Faust, Dr. Bemesderfer, Dr. Love, Mr. Mc-Cracken, Mr. Marquette, Mr. Schaak, Dr. Wilson
 - Sub-Committee on Student Faculty Council—Dr. Bemesderfer, Miss Faust, Dr. Hollinger, Mr. Marquette, Mr. Tom
- Sub-Committee on Student Finance—Mr. Schaak, Mr. Marquette, Mr. Riley Who's Who—Dean Kreitzer, Miss Faust, Mr. Marquette
- Health Committee—Miss Faust, Miss Bowman, Mr. McCracken, Mr. Marquette, Mr. O'Donnell, Dr. Monteith

Awards

Baish Memorial History Award established in 1947 in memory of Henry Houstin Baish by his wife and daughter, Margaret.

Awarded to a member of the Senior Class majoring in history; selected by the head of the History Department on the basis of merit.

Awarded in 1958 to Donald Marlin Grider Awarded in 1959 to Gene Rolf Layser

Pi Gamma Mu Scholarship Award authorized by the National Social Science Honor Society Pi Gamma Mu, incorporated and established at Lebanon Valley College in 1948 by the Pennsylvania Nu Chapter of the Society for the promotion of scholarship in the Social Sciences.

As an additional incentive for effort toward this end, this Annual Award, in the form of a nationally uniform and attractive medal, is granted upon graduation to a senior member of Pennsylvania Nu Chapter, selected by the Chapter's Executive Committee, for outstanding scholarship in economics, government, history, or sociology, and high proficiency or other distinction attained in pursuit of same during his or her years at the college.

Awarded in 1958 to Darwin Gene Glick Awarded in 1959 to Gene Rolf Layser

The Pennsylvania Institute of Certified Public Accountants Award—The Accounts Handbook, awarded to a senior on the basis of accounting grades and qualities of leadership on campus.

Awarded in 1958 to Ronald Blair Weinel Awarded in 1959 to David R. Meder

Wall Street Journal Award established in 1948 by the WALL STREET JOUR-NAL for distinguished work in the Department of Economics and Business. The award consists of a silver medal and a year's subscription to the Wall Street Journal.

Awarded in 1958 to Michael Hottenstein Awarded in 1959 to Mark Leon Miller

Music Scholarship Award given by the Department of Music to the senior and junior who have attained the highest scholarship in music.

Awarded in 1958 to Susan Ruth Zimmerman, senior; Carolyn M. Schairer, junior.

Awarded in 1959 to Carolyn M. Schairer, senior; Nancy Jane Kulp, junior.

Andrew Bender Memorial Chemistry Award established in 1952 by the Chemistry Club of the college and alumni. Awarded to an outstanding senior majoring in Chemistry.

Awarded in 1958 to Carroll Edward Ditzler and James Franklin Wolfe Awarded in 1959 to Ned Duane Heindel The Chuck Maston Memorial Award established in 1952 by the Knights of the Valley. This award is made annually to a male member of a varsity team who has displayed the exceptional qualities of sportsmanship, leadership, cooperation, and spirit.

Awarded in 1958 to Aubrey Kershner Awarded in 1959 to William Frank DeLiberty

The Salome Wingate Sanders Award in Music Education established in 1957 by Robert Bray Wingate, Class of 1948, in honor of his grandmother, Salome Wingate Sanders. Given annually to the senior who exemplifies excellent character, potential usefulness, high academic standing, and who evidences loyalty to his Alma Mater.

Awarded in 1958 to Helen Epting Awarded in 1959 to John Richard Fitch

The David E. Long Memorial Ministerial Award established in 1956 by the Reverend Abram M. Long, Class of 1917, in memory of his father, the Reverend David E. Long, Class of 1900. This award is given annually to a student preparing for the ministry, selected by the members of the Department of Religion on the basis of merit.

Awarded in 1958 to Sandy Robert Stover and Jack Ronald Hoffman Awarded in 1959 to James Kenneth Graby

The Southeastern Pennsylvania Section, American Chemical Society Award presented to the outstanding senior Chemistry major in each of the colleges in the area based on demonstrated proficiency in Chemistry. The award consists of a book entitled "A German-English Dictionary for Chemists."

Awarded in 1958 to James Franklin Wolfe Awarded in 1959 to Ned Duane Heindel

The B'nai B'rith Americanism Award given to the member of the graduating class who throughout the year by his actions best exemplified the philosophies of our American Democracy,—those precepts of tolerance—brotherhood, citizenship, respect for his fellow students regardless of race, color or creed; one who abhors prejudice and discrimination and who by his very actions has earned the respect and admiration of his fellow students by putting into practice the very tenets taught to all of us in our institutions of learning for the sole purpose of making this, our country, a better land in which to live.

Awarded in 1958 to Joan K. Heindel Awarded in 1959 to William Frank DeLiberty

The M. Claude Rosenberry Memorial Award given to an outstanding senior in Music Education who is entering the teaching field in the State of Pennsylvania, and who has demonstrated unusual ability and promise as a potential teacher.

Awarded in 1959 to Veronica Mary Evans

Alice Evers Burtner Memorial Award established in 1935 in memory of Mrs. Alice Evers Burtner, Class of 1883, by Daniel E. Burtner, Samuel J. Evers, and Evers Burtner. Awarded to an outstanding member of the Junior Class selected by the faculty on the basis of scholarship, character, social promise, and need.

Awarded in 1958 to Linda C. Heefner Awarded in 1959 to Fay B. Burras and Nancy Jane Kulp The Biological Scholarship Award established in 1918 by alumni and friends. Awarded annually by the chairman of the Biology Department on the basis of merit.

Awarded in 1958 to Rosalind Emily Horn Awarded in 1959 to Rosalind Emily Horn

The Medical Scholarship Award established in 1918 by alumni and friends. Awarded annually by the chairman of the Biology Department on the basis of merit.

Awarded in 1958 to Herbert Dale Kreider Awarded in 1959 to Russell Harry Etter

The Rettew Public Worship Essay Award established in 1955 by the Reverend and Mrs. C. E. Rettew, East Pennsylvania (U.B.) Conference. Awarded annually to a pre-theological student who prepares the best essay on the subject of Public Worship.

Not awarded in 1958 and 1959

The Andrew Bender Chemistry Scholarship Award—Awarded to a member of the junior class majoring in Chemistry for outstanding achievement in Chemistry, for leadership, and for campus citizenship.

Awarded in 1958 to Ned Duane Heindel Awarded in 1959 to Russell Harry Etter

Alumni Scholarship Awards—These awards authorized by the Alumni Association of Lebanon Valley College in June 1953 were established with the resources of the alumni Life Membership Fund. Two scholarships are granted annually to deserving students on the basis of character, academic achievement, and need; the recipients of these scholarships to be designated Alumni Scholars.

Awarded in 1958 to Marion Edith Brooks and Jacque Arthur Smith Awarded in 1959 to Lillian Adele Moss and Patsy LaRue Wise

The Woman's Club of Lebanon Scholarship Award—An award given annually by the Woman's Club of Lebanon to a person from Lebanon County enrolled as a full-time student; the choice to be based on financial need, scholarship, and character.

Awarded in 1958 to Jane Elizabeth Wolfe Awarded in 1959 to Rosalie Wida

Knights of the Valley Scholarship Aid—An annual award to a full-time student credited to the recipient's account at the beginning of the following school term. The selection is made on the basis of the individual's need, his cooperation with the purposes of Lebanon Valley College, and his academic progress.

Awarded in 1958 to Herbert Dale Kreider Awarded in 1959 to Charles Lee Arnett

Sophomore Achievement Award in Chemistry is given to the chemistry major who has demonstrated outstanding work in the field of Chemistry. The award, which was originated by the Student Affiliate Chapter of the American Chemical Society, consists of a "Handbook of Chemistry and Physics."

Awarded in 1958 to Carl Joseph Jarboe Awarded in 1959 to Samuel J. Shubrooks, Jr. Sophomore Prize in English Literature established by the Class of 1928. Awarded to the three best students in Sophomore English (Humanities 20), taking into account scholarship, originality, and progress.

Awarded in 1958 to Carole Jean Ott, Walter Haupt Miller, Jr., and Rozellen Ann Yocum

Physics Achievement Award—Awarded by the Chemical Rubber Company to the outstanding student of the freshman or sophomore class in the First Year Physics course. The award consists of a copy of the "Handbook of Chemistry and Physics."

Awarded in 1959 to Robert W. Kilmoyer, Jr.

Max F. Lehman Memorial Mathematics Prize established by the Class of 1907, in memory of a classmate. Awarded to that member of the freshman class who shall have attained the highest standing in mathematics.

Awarded in 1958 to Robert William Kilmoyer, Jr., and Samuel J. Shubrooks, Jr.

Awarded in 1959 to Judith Gail Buck and Edward V. Mirmak

Florence Wolf Knauss Memorial Award in Music awarded annually to that member of the freshman class who displays the following basic qualities: (1) musicianship with performing ability; (2) reasonably high academic standing; (3) cooperation, dependability, and loyalty to the college.

Awarded in 1958 to Marjorie Ann Peters Awarded in 1959 to Bonnie Jean Fix

Mathematics Achievement Award—Awarded by the Chemical Rubber Company to a member of the freshman class majoring in mathematics for the best work in mathematics throughout the freshman year. The award consists of a copy of the new edition of the Chemical Rubber Company's book on "Standard Mathematical Tables."

Awarded in 1958 to George William Smith Awarded in 1959 to Barbara H. Wogish

Freshman Achievement Award in Chemistry—The Freshman Achievement award in Chemistry is given to the chemistry major who has demonstrated outstanding work in the field of chemistry. The award, which was originated by the Student Affiliate Chapter of the American Chemical Society, consists of a "Handbook of Chemistry and Physics."

Awarded in 1959 to Barbara H. Wogish

Pension Trust Actuarial Science Award—Established in 1959 by the Pension Trust Advisory Service to encourage interest and study in actuarial science. The award is based on an examination on calculus, probability, and statistics, annuities and compound interest and is open to all students who have had the relevant mathematics course.

To be awarded in 1960
